COLABORACION

Estudio del proyecto de empréstito

DE LA MUNICIPALIDAD DE LIMÓN

Se ha publicado un proyecto de empréstito para atender a las mejoras sanitarias de este puerto, con el objeto de que el público, y particularmente los propietarios de Limón, lo examinen y discutan.

Muy acertado nos parece por parte de la Corporación Municipal, que antes de comprometer las rentas municipales con el recargo enorme de un empréstito de tan colosales proporciones, ocurra al público mostrando su proyecto para oír las diversas opiniones que se emitan.

Ojalá que todas las Municipalidades de la República sigan este saludable ejemplo, que garantiza mejor la buena administración de los fondos locales confiados a sus manos.

Hechas estas justas manifestaciones en honor de nuestro Ayuntamiento, entramos en el examen de la cuestión.

Se estima que el costo del saneamiento de Limón, según un proyecto presentado a la consideración de la Municipalidad, será de \$ 134,000 00.

No queremos entrar a considerar por ahora si ese proyecto es bueno ó malo; a su tiempo y cuando se trate de la resolución definitiva, del modo de llevar a cabo la obra de saneamiento, hablaremos de eso, que a no dudarlo es un punto importantísimo para que no se gaste el dinero sin provecho, como ha sucedido en las obras de las cloacas y cañería de este puerto.

La Municipalidad confiesa que existen en poder del Supremo Gobierno \$ 100,000-00 (cien mil colones) que por una ley de la República, deben emplearse en el saneamiento de Limón; de modo pues, que sólo nos faltarán \$ 34,000 00 (treinta y cuatro mil colones) para completar la suma que se ha calculado costará la obra redentora de nuestra bella ciudad del Atlántico. Vamos a suponer que la obra de saneamiento necesita para su terminación doce meses, y tendremos que tres años después comenzaremos la amortización del capital que se trata de conseguir al interés.

Según el proyecto de empréstito, para colocar los bonos, será preciso sacrificar un diez por ciento de manera que rebajado este descuento tendremos a recibir líquido \$ 153,000 00

más los intereses del primer año sobre \$ 170,000 al 8 por ciento que ascien-

den a \$ 13,600 00
tendremos ya la deuda en una cifra de \$ 183,600 00
Ahora bien, como no empezaremos la amortización del capital sino tres años después de terminada la obra, que hemos calculado se lleve

a término en doce meses, debemos calcular 3 veces \$ 13,600, que dan un total de \$ 40,800-00

y al empezar la amortización ya costará la obra \$ 224,400-00
Comenzando en este momento a pagar la deuda principal a razón de un 10 por ciento (que suponemos al mes, pues el proyecto no lo expresa); debemos calcular un promedio de interés de cinco meses, pues la total cancelación se hará en diez meses y eso nos costará \$ 6,666 66

Y por lo tanto un desembolso efectivo para la obra de \$ 231,066 66
Se nos podrá observar que nuestros cálculos están basado sobre \$ 170,000 y no sobre \$ 134,000, que es la cantidad presupuesta para el saneamiento; pero a este contestamos desde luego, que el dinero cuando se tiene en caja se gasta; y aun cuando no queremos entrar a juzgar en cuanto a la estricta ó liberal manera como ese dinero se invertirá, lo cierto es que creemos que \$ 153,000-00 en caja es muy fácil gastarlos en una ó en otra obra de mayor ó menor urgencia.

También suponemos, aunque el proyecto no lo dice, que el Gobierno no pagará los intereses de nuestra deuda, cargándolos a los 100 mil colones que adeuda por razón del 5 por ciento que colecta del recargo de los derechos de Aduana sobre los consumos locales, recargo que pesa sobre el vecindario.

De modo pues, que según la lógica indiscutible de los números el saneamiento de Limón, llevado a cabo en la forma que pretende la Municipalidad costará en vez de \$ 170,000-00 la suma de \$ 231,066 66.

Nosotros indicamos respetuosamente a la municipalidad que no se festine este asunto, de tanta trascendencia para los intereses locales y que se ocurra al siguiente plan que es a todas luces menos oneroso para la comunidad.

Tenemos en poder del Gobierno hoy \$ 100,000-00
La renta calculada del Mercado en 5 años a \$ 12,000 el año... 60,000 00
Acumulación de 2 y 3 por ciento de los derechos de aduana locales que pueden calcularse a 10 mil colones por año, surman... 50,000 00

Tendremos en el término de cinco años en mano la suma de \$ 210,000-00
Supongamos que la obra en vez de 134 mil colones, cueste 150,000-00
Nos quedará un sobrante para otras obras, neto de \$ 60,000-00

(Pasa a la 2ª plana).

ST LOUIS EXPOSITION

We note with pleasure among the awards granted that Costa Rica played a prominent part; the Government received a bronze medal for leaf tobacco exhibit and a grand prize for coffee and cocoa, and a gold medal for wood exhibit. Doña Alvarez de Rojas a grand prize for coffee exhibit and among the various other awards for various exhibits we note such well known names as H. Touron & Co. C. W. Wahle, Ricardo Jiménez, Eloy González & C., Juan Rafael Mata, Fabian Esquivel, Santiago van Patten & sisters John F. Skally, Federico Tinoco and a number of our industrious and leading enterprising members.

The National Bureau of Statistics came to the front with a bronze medal for its Statistical notes on Agriculture and Commerce for which we are glad to be able to congratulate its worthy Administrator.

These awards should act as an added stimulus to our agriculturists and others, and really place the Republic in a very enviable plane on the forward march. We offer our hearty congratulations to those interested and Costa Rica generally.

A Woman Never Does

A loafer on the street, whose wife was probably at home getting out a neighbor's washing to make money to buy the children shoes, asked a busy man the other day if he ever saw a baldheaded woman.

"No, I never did," replied the busy man. "And I never saw a woman waltzing around town with a cigar in her teeth. Neither did I ever see a woman sitting all day at a street corner on a dry goods box, telling people how the Secretary of the Treasury should run the national finances. I have never seen a woman go fishing with a bottle in her pocket, sit on the bank all day and go home drunk at night. Nor have I ever seen a woman yank off her coat and say she could lick any man in town. God bless 'em, the women are not built that way."—Kansas City Journal.

A case of mourning

From telegrams we learn of the sad death by drowning in Colorado River of Messrs F. M. H. Wood, John M. Tibaut and A. D. Rather, on their return from Nicaragua in a sailing vessel.

These gentlemen had accompanied Mr. M. M. Musgrave on a trip to Bin-fields where this latter went in the interests of the United Fruit Co, he being their Supt of Telegraphs.

Without particulars we can simply say for the moment that from an intimate personal acquaintance with all of the above named gentlemen, we consider, that not only has the United Fruit Coy lost an efficient officer, and a family a worthy head, but that this loss bids fair to be irreparable. Mr. Wood was not only our intimate friend but a most esteemed colleague, and in him the British Government had a decided zealous representative in Limon.

Of Mr. Tibaut the writer can say that from the personal relations he had with him in Costa Rica, his greatest desire would be to renew them and not to think for a moment that so promising and bright a future has been so ruthlessly destroyed by the hand of an adverse fate, he merited a better.

This is one of those accidents in life to which we unexpectedly have to bow and friendship's grief is too often stated with simple expressions of regret.

EL MUNDO, Don Marcial Alpizar and W. Nelsh send to the bereaved here, and across the seas, their sincere condolences and in doing so, pray that at any moment we might be able to say, "not that the sea ghye up its dead" but that they had escaped its wrath. Mr. Musgrave who remained at Bluefields escaped the sad fate of his friends and comrades.

We draw a cloud over his feelings knowing the esteem in which he held those we mutually mourn.

To those of the crew who mourn also their comrades loss we offer our sincere condolences and the same wishes. The death of Mr. Rather is yet doubtful.

Be aggressive if you want business. The easy-going merchant will get behind the times. Advertise in "El Mundo."

JAPS' NAVAL PLANS

Victoria, B. C., Nov. 22.—The Japanese Admiralty has entered upon an elaborate scheme of naval expansion which is expected to be approved at the coming session of the Diet, according to advices received here today. Ships with heavier armaments and higher speed will be built. The Jiji Shimpo says the battleships of the future Navy of Japan will displace 22,000 tons and have an armament of fourteen 12-inch guns and a speed of twenty knots, while the future cruisers will displace 15,000 tons and have a speed of twenty-five knots.

The Nippin gives a list of warships about to be laid down in Japanese yards as follows:

Yokosuka, battleship Satsama, 18,000 tons; Kure, battleship, Aki, 18,000 tons; armored cruiser Tsukuba, 14,000 tons; armored cruiser Ikoma, 14,000 tons; armored cruiser Ikubi, 14,000 tons; armored cruiser Kamura, 13,000 tons.

The five submarines recently built in America in sections gave such success that the squadron will be increased.

An immense gun factory, with twenty large buildings, covering eighty-three acres, is being established on the Sunda, near Tokio, where 4,000 men will be employed.

Cablegrams

GREAT BRITAIN.

London, 12.—The most notable nomination of the Cabinet has been that of John Burns, deputy artesar. He made himself prominent during the last dock strikes last year as leader.

GERMANY

Berlin, 12.—In treating and approving of the new naval propositions in the Reichstag, Von Bulow cited Roosevelt's words relative to the peace guarantee, which means an armed force, and added that not only Roosevelt but other Presidents of the same party opined likewise viz: that the best means of obtaining and keeping peace was to maintain an adequate fleet. Referring a second time to the Morocco incident Von Bulow said, that the nation took full responsibility for the Empor's visit to the latter place.

FRANCE.

Paris, 12.—The inquietude existing on Change may be attributed solely to the lack of news from St. Petersburg, but since the law of separation was passed, the Cabinet has been in danger and was only delivered because several deputies belonging in the majority to the Republican moderate party offered Rouvier to stand by him provided the Government took a proper stand in relation to Foreign Affairs.

Rouvier has given the necessary promises, hence the fear of a Ministerial crisis has been avoided and the Ministry will probably last until the elections.

It is probable that Etienne may again assume the portfolio of the Colonies and be replaced by General Tanguis who is considered the best tactician in the French Army.

ITALY

Rome, 12.—It is reported that France and Germany have not arrived at a settlement of the questions that may arise at the Algiers conference. The Italian Government is working to arrange a complete accord between the two Powers. Bstreffe has gone to Paris to attend to matters relating to aforesaid conference.

Either obliged by hunger or attracted by the good climate bands of wolves have left the Apennines which are covered with snow and have betaken themselves to the neighbourhood of Rome causing great alarm.

Bands of volunteers have started to exterminate them.

GREAT BRITAIN

London, 12.—A dispatch from Cape Colony announces that the German assertion of the pacification of Southwest Africa is unfounded. Hendrik Wilb whom they claimed to have defeated and killed, is alive.

The leaders Marengo and Motteris dominate completely the southern part of the territory.

HOLLAND.

Amsterdam, 12.—The Chamber of Commerce is arranging meetings to discuss the reunion of Holland and Belgium. Eminent men of

both countries will give their opinions on the subject.

RUSSIA

St Petersburg, 12.—Ignatieff has notified his friends that he does not desire to replace Witte. The friends of the former explain that the opposition to Witte among the personal friends of the Czar is spent in proving that the Prime Minister was mistaken in his judgment of the actual situation. Ignatieff and Treppoff are trying to convince the Czar, that the political strikers will awake to such a sense of the situation as regards the public antagonism, that the Government will be able to recuperate their public confidence solely by suppressing the strike and adhering to the promise to convoke the Duma.

The occurrences prove that the strikers enjoy universal and growing confidence. There is no confidence in the government although some aristocrats presented themselves as volunteers to distribute correspondence, an act done more in jest than earnest, these latter have been boycotted by people of their own class.

This attitude on the part of the upper classes helped the reactionaries to demand the arrest of all the leaders of the strike and of the revolutionary agitation. Their programme is military dictatorship under Treppoff, but as long as the Czar maintains his confidence in Witte there is little faith of their success.

It is reported that a great number of Prussians have requested employment, they say that in spite of not knowing Russian they are able to read the addresses on the letters.

The aristocrats continue their efforts to distribute letters in their districts. Many of the ladies of society headed by the Duchess of Louchenbourg go daily in their automobiles and carriages to the Post office and aid in the distribution of correspondence. On Wednesday the strikers stopped the vehicles and obliged the occupants to dismount, and to destroy them (the vehicles). New disorders advised from Cronstadt, the troops were obliged to fire on the mutineers; advices have been received of mutiny among the returning troops from Manchuria. In Sizaran the mutineers sacked the Railway station.

Without previous notice Durnovo ordered the arrest of Krustaleff President of Workmen's Council, 14 companies of Cossacks occupied the streets leading to the general meeting house of the committee cutting off exit. They surrounded the building, entered and arrested him; Krustaleff offered no opposition.

The police also took away some of the League's papers. Two anti-striker have been arrested. Krustaleff's arrest has caused great sensation. All the socialist and workmen's leagues are holding meetings. Violent speeches are being made. The majority favour a general strike to save Krustaleff. It is said that the Government arrested him with the intent of precipitating a strike knowing that the workmen are not prepared until January. The «Slav» says

that Witte's downfall is inevitable and that he will be replaced by a Minister to be designated by the National Assembly.

The Post (?) announces that Linevitch insists on sending... 200,000 men from Vladivostock to Odessa; they will leave in January.

The Government has approved the plan of the French Engineer Barron Loleq de Lobel for the construction of a Railway from Siberia to Alaska to cross Behring's Straits by bridge and tunnel. With a capital of 100,000,000 francs was what he said.

Krustaleff during an interview said that after Christmas a general strike will be declared. Everyone is enthusiastic and in preparation. The revolutionary propaganda we are carrying out in the army assures us a victory; peasants will join us.

LOCAL ITEMS

The bull fight advertised for Sunday promises to be an interesting spectacle owing to the fact of

experts Hermosilla and Chiapa forming part of the band.

A slide on the Atlantic line at mile 44 took place on Tuesday but owing to the active efforts of the Railway Coy the train was only detained in arrival by about 30 minutes, such activity displays a proper spirit in behalf of the public.
