SU CAPITAL

El Banco Mundial fue creado para ayudar a la reconstrucción y el desarrollo de los países miembros, facilitando la inversión de capital para fines productivos. El Convenio constitutivo dispone que el Banco fomentará las inversiones particulares en el extranjero, y que también promoverá un crecimiento equilibrado de largo alcance del comercio internacional, con vistas a ayudar al aumento de la productividad, a elevar el nivel de vida y a mejorar las condiciones del Trabajo. Estos son, en síntesis, sus propósitos.

A fin de llevar a cabo sus funciones, el Banco puede hacer préstamos de su capital o de fondos adquiridos en préstamo, servir de fiador o participar en préstamos hechos por inversionistas particulares, o sea la banca privada.

El primer paso hacia obtener los fondos necesarios para su funcionamiento fue la compra de las acciones del capital del Banco por los países miembros los cuales han suscrito cerca de \$ 8.5 billones de dólares. El capital suscrito por un miembro se divide en tres partes distintas, a saber: El dos por ciento, que es pagadero en dólares de los Estados Unidos o en oro, y puede ser utilizado por el Banco en cualquiera de sus operaciones; el dieciocho por ciento que es pagadero en la moneda del país suscriptor, y con respecto al cual el Banco sólo efectuará préstamos con el consentimiento del miembro cuya moneda entra en la transacción; y el 80 % res-

EL BANCO MUNDIAL SU ESTRUCTURA - SU LABOR Y SUS OBJETIVOS

(2º de una serie de 6 artículos)

tante que sólo deberá ser abonado cuando se necesite para hacerle frente a las obligaciones del Banco con respecto a fondos obtenidos en préstamo o a préstamos garantizados por él. Por consiguiente, el Banco no dispondrá de ese 80 % para préstamos.

La suscripción del 2 por ciento pagada por los miembros en dólares de los Estados Unidos o en oro llegó a \$ 162.055.000 (seis países cuyos territorios fueron invadidos durante la guerra pospusieron por cinco años el pago de un cuarto de esta parte de su suscripción, lo cual está de acuerdo con las disposiciones del Convenio). Los Estados Unidos de América autorizaron al Banco para emplear en préstamos la totalidad del 18 % de su suscripción, que asciende a la cifra de \$ 571.500.

Recientemente, seis países latinoame-

ricanos autorizaron al Banco para prestar una parte o la totalidad del 18 % de sus suscripciones.

México acordó aceptar el empleo de 17.500.000 de pesos, siempre que se necesitase esta moneda para mercancías o servicios dentro de México.

Colombia aprobó el uso de la mitad de su 18 % previa consulta al Banco de la República y obtenida su venia.

Paraguay autorizó el empleo de una parte del 18 % de su suscripción.

El Salvador autorizó el uso de la totalidad del 18 % de su suscripción para el pago de mercancías y servicios del país, y Honduras aceptó que el Banco emplee la totalidad de su suscripción a partir del 1º de enero de 1951.

Costa Rica aceptó en principio el empleo de la totalidad del 18 % de su suscripción, sujeto a la aprobación espe-

cífica de cada caso, cuando se presente la ocasión.

Además de esos países latinoamericanos, Bélgica, el Canadá, Dinamarca y el Reino Unido, autorizaron al Banco para emplear parte del 18 % de sus suscripciones. Francia, Italia y los Países Bajos también aceptaron en principio el empleo de ese 18 %, previa aprobación específica en cada caso por parte de ellos.

El Convenio también estipula que el Banco puede tomar dinero en préstamo, a su vez, prestárselo a países miembros.

Hasta ahora han conseguido en el mercado de dinero un total de \$ 260.587.551 mediante la venta de \$ 250.000.000 de sus propios bonos en los Estados Unidos, y el equivalente de \$ 10.587.551 en bonos en francos suizos a instituciones bancarias en Suiza. Teniendo en cuenta las cancelaciones, la reventa de valores recibidos en relación con préstamos, y las amortizaciones de capital disponibles para ser prestadas, el 30 de junio el Banco tenía aproximadamente \$ 267.000.000 de dólares disponibles para ser prestados.

Se espera que los fondos de que el Banco disponga para hacer préstamos aumentarán de tiempo en tiempo, principalmente por medio de dos fuentes de ingresos: 1) un mayor número de países que permitan al Banco emplear una parte o la totalidad del 18 % de sus suscripciones; 2) mediante dinero obtenido de los inversionistas gracias a la venta de bonos en los mercados.

Escuela Tomás Guardia

La Fiesta del 15

Con gran entusiasmo se prepara la Fiesta de la Independencia. Como en años anteriores, se hará la Semana Cívica; este año será sobre el interesante tema: *Conservación de los Recursos Naturales*. Bien sabido es que en el humus del subsuelo descansa la riqueza nacional, y nuestro pan de cada día.

Ojalá que no pase lo de otros años en el *Desfile de Faroles*: que muchos sin cultura, se dedicaron a apedrear faroles; lo decimos porque el año pasado hirieron a un maestro en la cabeza y golpearon a otro en un brazo.

El 15 será el acto cívico de las escuelas y colegios, y por los preparativos que se hacen parece que va a estar lúcido el miximo día de fiesta nacional.

Gran tómbola

El Patronato Escolar celebrará una gran Tómbola en el Balneario Municipal los días 15 y 16 de setiembre.

No olvide usted que lo esperamos. Visite La Bruja y pase un rato agradable.

Ayude a una obra de bien como es nutrir a los niños.

Baile usted al compás de los alegres ritmos de la orquesta de Jhony Steele. No olvide que lo espera la Lotería, los Mecates, y que en el Hotel será atendido con deleite.

Sociales

Se ausentó la compañera Prof. Virginia Martínez de Rivas, después de haber laborado algunos años en esta ciudad. Hacemos llegar hasta ella nuestro deseo de que en sus nuevas labores en la Escuela República Argentina de Heredia goce de tanta simpatía como entre nosotros.

Deportivos

En el campeonato de Basket-Ball Interescolar, se enfrentaron la Selección B Azul y Quinto A Anaranjado. La Selección B anotó 23 a los pives del Quinto A, que hicieron sólo 12 puntos.

En el segundo encuentro se enfrentaron: el Sexto A Blancos contra el Sexto B Amarillos. Los del Sexto B invictos hasta este juego, se fieron de su superioridad y buena suerte; en cambio, los Blancos volvieron por sus fueros a reconquistar aquel brío que tuvieron al principio del campeonato.

Por el escoré y la diferencia de dos canastas se puede juzgar que se disputaron los Amarillos el título de invictos y cómo se emplearon los Blancos para obtener la victoria.

Cuando el Referee sonó el silbato, la tabilla del marcador apuntaba lo siguiente: Blancos, 15 puntos, Amarillos 11 puntos.

Detalle de la Feria a Beneficio de la Escuela Rafael Yglesias

La Escuela Juan Rafael Yglesias C., efectuó una feria en el Balneario Municipal, gentilmente cedido por los señores Administradores Barrientos y Mora, con el fin de recaudar fondos para continuar el reparto del "plato de sopa" que hace un tiempo, fue necesario suspender por falta de fondos para su sostenimiento.

Con gran complacencia podemos decir que dado el excelente espíritu de cooperación que nos brinda, tanto los padres de familia como personas particulares y buen aporte de la Compañía Bananera, tuvimos un resultado satisfactorio, cuyos datos damos a continuación:

FUTBOL

El domingo pasado, a las 3:30 p. m. se llevó a cabo el segundo partido de la serie de tres por el Campeonato de Segundas de este año, entre Torino F. C. y Marte F. C. Fue ésta una verdadera lucha, en la ambos cuadros dieron todo su rendimiento y coraje. Los primeros en anotar fueron los marciales, cuando De la O (Papillas), logró impulsar un shut que Mena no logró atrapar. Así finaliza el primer tiempo, en el segundo Boyer consiguió el empate aprovechando un desajuste de la defensiva martea; minutos después, Sandi se penetró entre la defensiva Torineño, colocando de nuevo la bola en el fondo de la red, desempatando. Los torinos redoblan sus esfuerzos, haciendo así varias y muy seguidas incursiones de las sólo un gol aprovecharon, volviéndose a empatar el encuentro. Los marciales toman inmediatamente la ofensiva para marcar de nuevo la delantera en medio minuto después de poner la bola en el centro de la cancha para hacer el saque.

Con este tanto, y faltando poco para finalizar, Barnes, defensa del Torino, al parecer estar un poco enardecido, le lanzó una patada a De la O quien le estaba jugando con la mano, cosa que todo jugador hace mientras el Juez no se dé cuenta de ello. Con este score se dio fin a este interesante encuentro, convirtiéndose así el Marte en Campeón de 1950 (Segundas Divisiones).

Felicitaciones a los bravos muchachos del Marte.

BASE BALL

Comentarios: El beisbol, deporte orgullo de los limonenses, cuenta desde hace varios meses con una bien organizada Escuela de Umpires, que está bajo la acertada dirección del gran deportista Gonzalo Xirirach.

Los que han visitado constantemente

ACTIVIDADES

los fields en que han actuado miembros de esta entidad, habrían podido notar los adelantos de la misma. Sus decisiones siempre aciertan, por lo que la Liga Atlántica de Base Ball no ha tenido dificultades en la marcha de sus labores. En todo el transcurso del campeonato sólo un alegato se presentó en su seno, y fué mediante apelación que hizo el Motive Power sobre una decisión del umpire oficial Herbert Ruddock, cuan-

DEPORTIVAS

A CARGO DE CHALO.

do se enfrentó dicho equipo a los Braves; la apelación no tuvo acogida, ya que se consideró correcto el fallo.

Otro apunte que no podemos dejar sin mencionar, es la inmensa labor del cuerpo directriz de nuestro beisbol; gracias a ellos este deporte ha tomado un auge excepcional. Para lograr esto, se vieron en la necesidad de adoptar medidas tendientes a contrarrestar las consecuencias de aquellas actividades indis-

Hogar de Pláceres

Queremos llevar en este número a nuestros lectores y en especial a la cultura limonense la grata noticia del advenimiento al mundo, el día 4 del corriente, de un bello bebé en el distinguido hogar de nuestro buen amigo don Naim Sarkis y su apreciable señora doña Coralia Montanara de Sarkis, elementos

estos apreciadísimo en el mundo social y comercial del Puerto, pues su proverbial exquisitez y cultura los ha hecho acreedores de la simpatía general.

Para el nuevo varoncito, que será mañana orgullo de sus dichosos padres, nuestros parabienes por su felicidad.

ciplinarías; imponiéndose constantemente mediante sanciones o castigos. Varios jugadores de fama como el gran Vitorio Frances, han caído bajo las penas reglamentadas por este cuerpo. Se puede decir que esta actitud estricta de la Liga es la que ha llevado nuestro beisbol a las alturas. Por esta razón, cuando nuestro colega, Deportivo Atlántico hizo un llamamiento a los coaches y directores de los equipos infantiles y juveniles, sobre discusiones de los managers de los equipos contendientes, nosotros estuvimos en un todo de acuerdo con ellos, ya que estos jóvenes son nuestros futuros representantes en las canchas y desde ahora se inculcarían en esa mala costumbre.

—:—:—
Gran entusiasmo ha despertado entre la afición limonense la anunciada gira de los sub-campeones a la capital, con el fin de efectuar una serie de tres partidos con equipos josefinos. Buena suerte deseamos a los Braves y ojalá coseche el triunfo, que será de todos los limonenses (Partieron esta mañana).

EDITORIAL

LA ENSEÑANZA AGRICOLA ES NECESARIA

La Provincia de Limón es esencialmente agrícola y notable para el cultivo de banano y cacao, como los dos productos principales, además de otros productos. No podemos negar el hecho de que estos productos son los más importantes factores en nuestras actividades económicas. Como entendemos, la industria actual del banano no ofrece ningún medio de estímulo, pero somos de creencia fija que no quedará permanentemente así.

La base de desarrollo de ambas plantas es mayor, según el conocimiento científico en el cultivo y mejores métodos de cosechar; también conocimiento científico para contrarrestar las enfermedades a que están expuestas estas plantas.

Para obtener una mejoría en el cultivo, es necesario que los terrenos en donde se cultive estén bien preparados; esto sólo puede hacerse por medio de conocimientos completos, en relación a la calidad del suelo y el cuidado de las plantas.

La presente generación es la más directamente obligada a estar bien preparada para ocupar los lugares de sus antecesores y confrontar un futuro que será de certeza apremiante en todas sus demandas.

La ciencia agrícola es la llave para abrir las puertas de los progresos. Ningún servicio más alto, creemos, puede dar esta zona que añadir instrucciones agrícolas con las otras asignaturas en las escuelas. Esta enseñanza introducida en todas nuestras escuelas oficiales y privadas acarrearía muchos beneficios para nuestro país en general; escapándose así pocos discípulos de absorber estas instrucciones. Creemos que interesándose éstos, en años que vendrán, podrán efectuar siembras de bananos y cacao de mejor calidad.

At the six o'clock morning hour, today, September 9, in the St. Mark's Church the Sacrament of Marriage which associated their destinies was solemnized by the Reverend William L. Ziadie, the Rector of Limon. The contracting pair being members of the Church they were the recipients of full christian rites.

The conviviality which surrounds the estimable couple, will without doubt, give importance to the news of their marriage, due to the fact both occupy in the hearts of their parents and friends an illustrious spot by the attributes which they characterize.

«THE ATLANTIC» by this medium illicitly congratulates them and wishes them much happiness in their new state of life.

Br. Guiana Wins Shooting Cup

British Guiana has won the Anchor Cup competition, organized by the West Indies Rifle Association and fired at the Bisley ranges in Surrey, England.

British Guiana and Trinidad tied with 816 points each, but British Guiana

were declared the winners because they had the highest score at the longer range. Jamaica scored 813 and Barbados 788.

The event, shot over 300, 500, and 600 yards, is normally held in each of the four competing territories in turn.

Molestias de la Vejiga

Cada día de descuido aumenta los padecimientos

La irritación intolerable, los ardores que producen los trastornos de la vejiga, deben ser combatidos en sus comienzos.

Por la vejiga pasan los venenos y desechos que los riñones han separado de la sangre. Cuando este delicado órgano está inflamado, sufre por el contacto con esos venenos irritantes.

Los ardores y las inflamaciones de la vejiga, deben ser combatidos con las Píldoras De Witt para los Riñones y la Vejiga.

Sin drogas que puedan dañar el organismo, las Píldoras De Witt para los Riñones y la Vejiga ejercen su acción calmante y antiséptica en los riñones, la vejiga y todos los conductos urinarios.

Emplee con confianza este medicamento sencillo, que no ocasiona molestias de ninguna especie. Cincuenta años de éxito son su mejor recomendación.

En frascos de dos tamaños, con 40 y 100 píldoras.

A sudden death at Matina

Quite true, that we no longer consider death as an accident, for we well comprehend that it is a general course of humanity's final. However, there are times when the summer is served it stirs lamentation and evokes deep sympathy for the surviving loved ones. Such became evident on the occasion of the sudden death of Mr. Dolfus Brown at Matina.

On the afternoon of the 18th ultimo on his return from his farm, we learn he said to his house companion that he was not feeling well;—that was the last utterance; in a few moments he died.

He was native of the parish of Hanover, Jamaica, British West

Indies and had resided with honour and esteem in the district of Matina over a lengthened period of years. His last remains inlaid in his last house were accompanied by a large number of mourners and sympathizers to the burial ground. Over his grave befitting tribute to his earthly career was delivered by Mr. Rose. Many tears were shed.

Among the surviving relatives are Mrs. Whielmena Malcolm, Harold George and Bernice.

Miss Evelyn McKenzie adopts this medium to thank the friends of Matina, Estrada, the city of Limon and other parts for their condolence extended to her and their assistance at the funeral ceremony.

JOS. A. THOMAS

Number 42 — SEPTEMBER 9, 1950 — Year 1

POST BOX 199

LIMON, COSTA RICA

OUR TASK

FROM OUR DESK

BY THE EDITOR

The Province of Limon is essentially agricultural and noted for the cultivation of Banana and Cacao as the two major crops and in additional ground provisions. We cannot gain say the fact that these products are the outstanding factors in our economic life. By what we gather the Banana Industry at the present offers no medium of encouragement, but we are of firm belief that it will not remain permanently downhill.

The foundation for the improvement of both plants is greater scientific knowledge in cultivation as well as better reaping methods and also by scientific knowledge to fight the diseases to which these products are subjected.

In order that production be more profitable, the lands we cultivate must be rendered more productive; and this can only be done by increased knowledge regarding soil culture and the care of plants.

The rearing generation are the ones more directly concerned and should be fully prepared to take the places of their elders and face a future which will, in all certainty, be more exacting in all its commercial requirements. Agricultural Science is the key to open the door for the successful farmers. No higher service, we believe, could be rendered this Zone than the imparting along with the other instructions in our schools, the rudiments of that knowledge on which our agricultural prosperity must so largely depend. If this training be enforced in all our official and private schools, few pupils will escape imbibing that which may enable them, in their years to come, to effect the growth of two Cacao Plants where only one grew before and cause a better banana plant to grow where one of an inferior quality did previously.

Among The Baptists:

At the seven o'clock evening hour of Saturday the 2nd instant, nature was attuned with the approaching occasion of the Baptist Church. There prevailed a much milder atmosphere than our experience during the earlier days of the week. There was evidently a yearning desire among baptists and friends to welcome the Delegation of the Jamaica Baptist Union in the eminent personages of the Reverend Clarence G. Whylie, J. P., Chairman of the Jamaica Baptist Union and the Secretary of the Missionary Society and the Reverend David A. Morgan, J. P., Liaison Officer of the Jamaica Baptist Union. They were accompanied by Miss Linda M. Ainsworth of Jamaica, the Reverend W. D. Morgan, the Pastor of the Almirante-Bocas Circuit, his esteem wife, Doña Haydee Muñoz de Morgan and Miss Carol R. Morgan, sister to the Reverends Morgan.

The platform was a scene of eminence ready for the artist's brush instead of our humble pen.

The Reverend Forde, in his well known efficiency introduced the guests of honour. Knowing as we do his racial consciousness, we were not taken by surprise by his soul expression in the loftiest appreciation of the gentlemen of the Delegation;—men of colour, but ideal pillars, intellectually and spiritually.

Mr. Stephen Riley, deacon of the Church delivered the address in behalf of the Church. Mrs. Susana Moodie set a high mark by her barque was not left to the mercy of the intellectual stream. It was ably steered. Miss Vera Gillings spoke very interestingly for the Sunday School. A song by the children with Mrs. B. McRae presiding at the organ was an effective prelude to the soul moving address of the Reverend Clarence G. Why-

lie. We discovered in his remarks a two-fold purpose; first as Chairman of the Jamaica Baptist Union, and Secretary of the Missionary Society he officially showered congratulations and thanks of Pastor Forde, his congregation and friends for the splendid support given from time to time to the Missionary Society and that the repairs to this Church is self-evident of the labours which it involves. There was sincerity in his address and was unquestionably poured from a well-spring of intellect. It was all-embracing. Mrs. Haydee Muñoz de Morgan in clear and moving tone of voice in Spanish rendered a solo. She was the recipient of cheers at its close.

The Reverend David A. Morgan came forward after his introduction by the Pastor. At the outset we saw in him a package of magnificent possibilities — physical — mental — emotional — Spiritual — and in full and harmonious development of the possibilities was evidence, we believe of his worth. He also entered the area of the Overall Central Fund Scheme of the Jamaica Baptist Union; thus paving the way for many of the deficiencies of the past; principally to afford regular contact with baptist Churches in Jamaica and around the Caribbean.

IN REMEMBRANCE

In loving and never fading memory of our beloved Husband, Father and Grandfather

JAMES MCDUGAL

who departed this life on September 8, 1946
*Today, four long sad years have gone
 Since you left us Dad that Sunday morn
 A day we cannot never forget
 A day of sorrow and regret
 To think of the sad farewell before you closed your eyes
 To hear you voice and see that smile
 That meant so much to us
 For all of us you did your best
 God grant you His eternal rest.*

LILIAM MCDUGAL Daughter
 AMANDA MCDUGAL Widow.
 OTHER DAUGHTERS, SONS. And relatives.

The richness of the tones of voice of Miss Iris Williams and Mrs. J. Stewart fell upon the ears in the rendition of their duet. Reverend W. D. Morgan, called the Associate Pastor of the local Baptist Church

contributed a spicy address to the programme.

The mellowed closing remarks of the Reverend Forde terminated a well spent evening.

Germania Has Lost a Well Beloved Citizen

Mr. James Alexander Smith known as the good man of Germania passed from this life to the Unknown Beyond on Monday evening the 21st of August, 1950, after just one day's confinement to his home. He was buried the following day. Mr. Smith was a Jamaican

born in Manchester and came to this country in the year 1906. He lived an unmarried life, but as a true Christian. His philosophy was to do all the good he could to all the people he could and just as long as he could, for 72 years.

The people of Germania in whose hearts burn appreciation and love and the adjoining districts are mourning the loss. But God knows best.

May his soul rest in peace.

How Good is Your Vocabulary

Words — can you find the correct words? Your vocabulary, like any other part of you, develops with exercise.

The trick is to summon from the recesses of your mind, quickly and without hesitation, the words which fit.

Many English words sound alike but are spelled differently and have unlike meanings; for example, BEAR and BARE, SEEN and SCENE, etc.

Write a pair of such words in each pair of blanks, following the definition.

1. One predicts, the other is the purpose of most business enterprises. _____
2. One may refer to weather, the other is payment for transportation. _____
3. One is on the clock, the other flavours food. _____
4. One is not fancy, the other is flat. _____
5. One is the central portion, the other is a military unit. _____

In our next issue will be published the correct words to this test along with another item on "How Good Is Your Vocabulary". Dont miss the coming issue.

Princess Elizabeth's Daughter

LONDON—August 17 —(LPS) The daughter born to Princess Elizabeth at her London home Clarence House on Tuesday last stands third in direct succession to the British Throne. This event has aroused world-wide interest and excitement in Britain has been shared not only in the countries throughout the British Commonwealth but also by nations in Europe and by the USA. In America the arrival of this royal princess was treated as an occurrence of world importance and all radio transmissions were interrupted for a special announcement.

The baby weighed exactly six pounds at birth according to a statement from Clarence House. Royal physicians visited mother and child and issued an official bulletin. "Her Royal Highness, Princess Elizabeth and her daughter have had a good night and both are making satisfactory progress".

It is understood that the princess and her husband have not yet chosen the names for their daughter. Prince Charles' names were not announced until the day of his christening when he was four weeks old. No date is fixed for the new

princess's christening but the ceremony is not likely to take place any earlier than in the case of her brother.

No elaborate arrangements have been made at Clarence House for the new baby. She will share Prince Charles' nursery which is on the top floor. Prince Charles who is now twenty one months old was born at Buckingham Palace as a that time Clarence House was still being prepared for occupation by his parents. The cradle which was used original for Princess Elizabeth and Princess Margaret then for Prince Charles will be used again for the new princess. The baby clothes collected for Prince Charles will also be handed on to his sister as will many of his toys.

Third in Succession to The Throne

This new royal princess takes precedence over Princess Margaret and is third in succession to the monarchy. She stands immediately after Princess Elizabeth and Prince Charles. Like her brother Prince Charles she is directly descended from Queen Victoria being her great grandchild. This descent is traced through both her parents Princess Elizabeth and the Duke of Edinburgh.

The new baby was born Princess of Edinburgh under a decree issued by the King two years ago at the time of Prince Charles' birth. Previously the grand-children of a British sovereign had not been entitled to be styled Royal Highness with titles of Prince or Princess unless descended through the male line. But this decree applies only to children of Princess Elizabeth who is heir presumptive to the monarchy.

Although a royal occasion, this birth is regarded fundamentally as a happy event in a happy family which is held in affectionate regard by millions throughout the world. It has evoked not only expressions of formal loyalty and congratulations but a spontaneous welling-up of joy and pride throughout the British Commonwealth and of excited pleasure elsewhere.

The West Indies cricket touring team took 16 England wickets for 65 runs on Wednesday at Kensington Oval, to win the fourth and final Test match in the most surprising finish of their tour.

The victory gave the West Indies their first rubber in 50 years of cricket contests in England, by the decisive margin of three matches to one.

Final scores were: West Indies, 103; England, 544 and 103. Thus the West Indies won by an innings and 56 runs.

At close of play on Tuesday, with England only 221 runs behind the West Indies first innings score and having six wickets in hand, it was generally expected that the match due to end Thursday, would peter out in a draw. But skipper Goddard took advantage of a dry-wicket and skittled out the opposing batsmen at the rate of 10 runs apiece.

When play began on the previous Saturday, John Goddard won the toss yet again, and batted on a perfect wicket. The West Indies finished the day with their score at 295 for three wickets, (Rae 109). Both Stollmeyer and Weekes had left in their thirties, Weekes being the first victim of left arm spinner Wright, who bowled excellently throughout the innings. Worrell, whose batting and bowling feats were exacting their toll in tiredness was 110 not out.

On Monday, Worrell took his score to 138, after a dizzy spell had interrupted his innings. Both Gomez (74) and Goddard (58 not out) batted stubbornly, and when Wright polished off the tail, taking his bag to five wickets for 141

runs, the score had reached 503. The West Indies however, took well over five hours to score the 208 they added.

Simpson and Hutton opened cautiously for England and played out time, scoring 29 in 67 minutes.

Rain interrupted play on Tuesday for about 55 minutes, but this was in England's favor, as it tended to halt deterioration of the wicket and made it difficult for the W. I. spin bowlers to finger the wet ball. In the remaining time, England scored 282 for 4. Hutton had at last struck form against the West Indies and battled undefeated through the day for 160. Compton, after a shaky start, was beginning to play Ramadhin and Valentine safely, if not comfortably. Just as his partnership with Hutton began to take on a formidable aspect, they misjudged a run, both were caught at the same wicket, and Compton was run out at 44. Their partnership — England's best two batsmen facing the West Indies best two bowlers — produced some of the best cricket of the season.

And then came the end. Although play started with the sun out on Wednesday, it was drying a wicket on which rain had fallen during the night and early morning. Goddard decided to capitalize on this. He thought Ramadhin too slow for this wicket and gave him only four overs. To Jones, who swings away from the batsman, he gave only one. But he bowled Valentine and himself for 15 overs each and between them they took the last six wickets for 62 runs (Goddard

CEDRIC KERR

West Indies Cricket Tour in England

4 for 25, Valentine 2 for 31). Valentine's figures for the innings were 4 for 121. Hutton, the only batsman to play them with confidence, completed a score of 202 not out, the highest ever made against a touring W. I. side in England.

With a lead of 159 runs, Goddard forces the follow-on. He got the first wicket himself, when Robert Christiani, fielding at short leg about three paces from the wicket, dived and caught Hutton for 2. Thereafter it was only a matter of time for Valentine and Ramadhin to complete the rout. Valentine took six for 39 and Ramadhin three for 38. Valentine's total for the match was 10 wickets for 160 runs, a test match record. Weekes was brilliant in the slips, taking five catches off Valentine.

In the four Test matches, the West Indies scored 2,313 runs for 56 wickets an average of 41 runs per wicket. England scored 2,431 runs for 80 wickets, an average of 26 runs per wicket.

Seven matches remain in the tour, which began on May 6 with the match against Worcestershire and ends on September 12.

Four W. I. Players Invited to Tour India

Four West Indians now touring England, Hines Johnson, Sonny Ramadhin, Alfred Valentine, and A. E. Rae, have been invited to tour India with a Commonwealth cricket side towards the end of this year.

The Commonwealth side will be managed by George Duckworth, former England wicket-keeper.

Duckworth held a similar job with the last Commonwealth team that toured India late last year.

MEMBERS and Congregation of St. Mark's paid befitting homage to the Reverend & Mrs. William L. Ziadie

We breathe pleasure as we breathe the air, in passing along the news in conjunction with the magnificent welcome given to the Reverend Fr. and Mrs. William L. Ziadie on the occasion of their return from a visit of several months in the grand North American Republic. The very befitting homage was well prepared and extended by the parishioners of St. Mark's.

The set-up was in the Parish Hall on Monday night the 28th ultimo. The deep love and wide reverence possessed by the members and congregation for the Rector and wife was that medium by which the

mind embarked in that honourable course of the demonstration. It proved comprehensive view of the high standard of a people to their spiritual leaders.

The work accomplished during their tenure of service prior to their leave of absence has more than justified the welcome given to them.

We have good reasons to think that the Rector and Mrs. Ziadie have returned greatly benefited by their trip and with renewed zeal to spread the Message of the Cross, demonstrate Christian Fellowship, not only to Anglicans, but to our general community.
