

Con Absoluta CALMA Transcurrieron las ELECCIONES en la PROVINCIA de Limón

Las elecciones verificadas el domingo pasado transcurrieron en una calma completa y en calma como era de esperarse. Ni un sólo incidente en las mesas de votación. La nota de civismo que ha dado la provincia es digna de aplauso, y la ecuanimidad que mantuvieron las autoridades en toda la jornada son el mayor triunfo para el señor Presidente.

El Partido Republicano Nacional triunfó por una abrumadora mayoría de votos sobre la Unión Demócrata. Damos a continuación los datos que nos han suministrado y que salvo pequeñas diferencias por los votos computar con el resultado de la votación.

Licenciado don Francisco Fonseca Chamier, actual Vice-Presidente del Congreso y electo el 10 de febrero, para un nuevo periodo por una abrumadora mayoría de votos, que dicen mejor que cualquier elogio que hagamos de la simpatía y el prestigio que goza entre nosotros.

MUY ATRASADA RECIBE EL COMERCIO DE LIMON LA CORRESPONDENCIA EXTERIOR

Importantes comerciantes de esta ciudad nos han manifestado los atrasos con que reciben la correspondencia que llegan del exterior y que ellos atribuyen al hecho de que al recibirla el correo de Limón tiene que remitirla a la oficina central de San José por orden de la Dirección General de Correos y que de allí la devuelven, con pérdida de tres o cuatro días.

Ignoramos si es esta la razón. Pero si así fuera valdría la pena que a la llegada de la correspondencia de los barcos, se distribuyera. Los servicios de correos de esta ciudad son muy buenos y nos complacemos en reconocerlos. Si el señor Administrador puede hacer algo en beneficio de los interesados, lograría mejorar esos servicios.

PARCE QUE VA A SAN JOSE Y REGRESA DE NUEVO PARA SER DISTRIBUIDA

Se ha dicho con sobrada razón que luchamos en esta guerra para alcanzar un estilo de vida democrática concebido por Dios y haci así cual todos los hombres han trabajado y dado forma. Si el renacer de la fe tradicional de nuestro pueblo es una necesidad para lograr la victoria en la guerra, ella será muchísima más esencial cuando sea el retorno de los cañones y los hombres de estado hagan frente a la tarea de unir de nuevo al mundo en la cordura. El brotar entonces de la fe luchadora de

20 TONELADAS DE PLATANOS SE HA PERMITIDO EXPORTAR A LOS ESTADOS UNIDOS

Hace algunos meses una compañía exportadora de bananos trató de exportar a los Estados Unidos pequeñas cantidades de plátanos cuya producción en la provincia es bastante grande. Cuando se había exportado una pequeña cantidad la Oficina de Control de precios ordenó suspender las exportaciones de esta fruta estimando que estas serían en el país por los precios que se estaban pagando.

El resultado fué únicamente que la producción bajó de una manera alarmante porque los precios que se pagan en el mercado nacional son muy bajos y los valores del ferrocarril no dejan margen de utilidad apreciable.

Ahora se ha permitido nuevamente la exportación de este producto limitada por el momento a veinte toneladas. El sólo anuncio de este permiso a producido alegría entre los productores y ya se nota como han aumentado las siembras en poco tiempo. Este permiso es una ayuda inculcable para los pequeños finqueros y para la provincia en general.

Notas editoriales - COLAS DE ARDILLA

Un grupo de agricultores se acercó a nuestras oficinas trayendo una sugerencia que nos parece no solamente atinada sino absolutamente necesaria si queremos desarrollar con tranquilidad nuestra producción agrícola.

Parece que la plaga de ardillas se ha desarrollado en forma alarmante durante los últimos tiempos. Calculan los finqueros que este animal les merma sus cosechas en un veinte por ciento, especialmente en el cacao que parece ser su fruta predilecta. Ni el veneno ni la persecución individual que actualmente se hace para combatirlos pueden contrarrestar el daño. Es necesario iniciar una campaña más activa. Para esto se requiere la cooperación de la Secretaría de Agricultura.

Hace algunos años la Compañía Bananera que tuvo ese mismo problema inició la compra de colas de ardilla con el propósito de terminar la plaga. Pagaba cincuenta céntimos cada animalito que se le entregara muerto. El resultado fué magnífico.

Si la Secretaría de Agricultura, por medio de su Delegado en esta zona, invirtiera una suma pequeña para este mismo fin haría un positivo servicio a los pequeños agricultores. Cincuenta céntimos que se paguen por cada ardilla muerta apenas alcanza a cubrir el valor de la pólvora y las municiones que se usen en el tiro. La mayoría de los finqueros, que son pobres, no pueden cubrir ese gasto. Y esta sería una manera efectiva de ayudarlos.

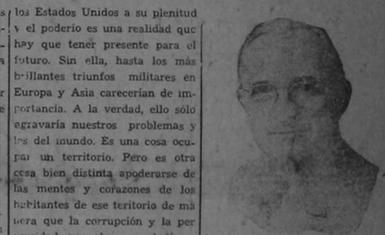

LA VOZ ATLANTICA

SEMENARIO INDEPENDIENTE
 AÑO XI — PUERTO LIMON, COSTA RICA, SABADO 16 DE FEBRERO DE 1946 N° 501

La Democracia y las Cuatro Libertades

La fe que inspira al Presidente Truman está claramente expresada en el sensato discurso que pronunció en el Foro de las Naciones Unidas:

"Se ha dicho con sobrada razón que luchamos en esta guerra para alcanzar un estilo de vida democrática concebido por Dios y haci así cual todos los hombres han trabajado y dado forma. Si el renacer de la fe tradicional de nuestro pueblo es una necesidad para lograr la victoria en la guerra, ella será muchísima más esencial cuando sea el retorno de los cañones y los hombres de estado hagan frente a la tarea de unir de nuevo al mundo en la cordura. El brotar entonces de la fe luchadora de

los Estados Unidos a su plenitud y el poderío es una realidad que hoy que tené presente para el futuro. Sin ella, hasta los más brillantes triunfos militares en Europa y Asia carecerían de importancia. A la verdad, ello sólo agravaría nuestros problemas y los del mundo. Es una cosa oírse por un territorio. Pero es otra cosa bien distinta apoderarse de las mentes y corazones de los habitantes de ese territorio de manera que la corrupción y la perversidad que ahora combatimos vuelvan a apoderarse de ningún hombre ni de ningún país.

Cuando Truman se dirigió por primera vez al Congreso como Presidente de la Nación, el 16 de abril de 1945, dijo:

"Aquí en los Estados Unidos hemos trabajado mucho y fuerte para lograr un orden social digno de nuestro gran legado. En nuestros días se ha progresado enormemente hacia un estilo de vida realmente democrático. Permítame asegurar a todos los hombres que tienen la mirada fija en el porvenir que no habrá 'libertad'."

EL ATRASO EN EL DESPACHO DE LAS MERCADERIAS NO ES CULPA DE LA ADUANA DE LIMON

Lo que nos dice el Sr. Administrador de Aduana

El Sr. Ministro de Hacienda, San José.

Con relación al memorial que a la Cámara de Comercio presenté Ud. me permito informarle.

Lo cierto que el vapor "Coastal Scout" llegó a este puerto el día 12 de enero y que la descarga duró seis días. No fué sino el 28 de enero que se principió de nuevo formal el chequeo de este vapor y que ha terminado hoy 13 de febrero. Durante estos catorce días hábiles han sido chequeados 246 carros de mercaderías formal según el siguiente de taller: "Coast Scout" 211, "Stella Maris" 12, "Perera" 23, haciendo un promedio de 17 carros diarios.

Si la Honorable Cámara de Comercio solicitó más esfuerzo de nuestra parte, no tendremos inconveniente en hacerlo, pero sería necesario que la Oficina de Presupuesto extendiera, para este Aduana, un permiso permanente de cuatro horas diarias de trabajo extraordinario que sumadas a las ocho corrientes, darían doce horas diarias. Habría que pedirle al Ferrocarril anuencia para esta forma de trabajo.

Respetuosamente,

Juan Rafael Ortiz
 Administrador Aduana.

11 de febrero de 1946.
 Sr. Secretario de Estado en el Despacho de Hacienda y Comercio.

S. D.

Señor Ministro:

Tengo el honor de transcribir a Ud. el acuerdo tomado por nuestra Junta Directiva en su sesión del 8 de febrero corriente.

ART. 49: Miembros de esta Asociación informan que ha vuelto la demora en el chequeo y despacho de mercaderías de la Aduana de Limón. Que el vapor llega desde el 22 de enero, y aun mercancías llegadas con fecha anterior se encuentran sin chequear ni despachar. Ya se había notado una mejora en esos servicios y se ha vuelto a una situación semejante a la que existió hace algún tiempo y fué arreglada con la intervención del Señor Ministro y Directores de la Cámara de Comercio de Costa Rica. Esa situación no solamente es muy perjudicial para el comercio y el público, sino también para el Tesoro Nacional, al que se le demoran ingresos que necesita para sus atenciones. SE ACORDO elevar un memorial al Señor Ministro de Hacienda y nombrar una comisión compuesta por los señores: don Paul Siqueira, don Miguel A. González C., y don Isidro Perera Boix, quienes lo irán a entregar al Señor Ministro y le harán las explicaciones más amplias acerca del particular.

Del Señor Ministro en muchas cosas de alto consideración, muy respetuosamente,

Juan Fernández Morúa, P. E.
 Secretario General.

OTRA JUNTA RURAL DE CREDITO AGRICOLO PARA LA PROVINCIA DE LIMON

Funcionará en la ciudad de Limón, habiendo sido nombrado ya como delegado del Banco, el ingeniero agrónomo don Jorge Alvarado Arroyo, quien ocupaba una posición en la Secretaría de Agricultura.

DE INDISCUTIBLE BENEFICIO PARA LA ZONA ATLANTICA SERIA LA INSTALACION DE ESTA NUEVA JUNTA RURAL.

De gran satisfacción será para los habitantes o afincados en la zona atlántica, — el saber que muy pronto funcionará ya la nueva junta Rural que el Banco Nacional instalará en la Ciudad de Limón. Hace días fué nombrado el Delegado respectivo, que lo es el ingeniero agrónomo don Jorge Alvarado A., que venía desempeñando un cargo en esa Zona por parte de la Secretaría de Agricultura. De indiscutible be-

Un Extenso Recorrido Harán los Miembros del Consejo Nacional de Producción

Y LOS DE LA DIRECTIVA DEL BANCO NACIONAL POR LA ZONA ATLANTICA

En primer término visitarán la Secadora de Guacimo, ya que existe el propósito de formar una Cooperativa para que adquiera esa maquinaria del Servicio Cooperativo Interamericano, en lo que el Banco cooperará económicamente.

Nos hemos enterado de que tendrá la ayuda económica del Banco y de comprarse la secadora se procuraría acondicionarla mejor ya que se pretende que todos los agricultores de esa zona aumenten sus cosechas, enseñando así la labor agrícola en tan importante zona.

Luego de visitar Guacimo, los viajeros irán a la población de Guacimo, a fin de visitar la Junta Rural de Crédito y darse cuenta de las labores y resultados de ésta. De allí pasarán a Limón en donde será inaugurada la Junta de Crédito que funcionará en ese Puerto y además se crearán las Almacenes de Depósito en Grecia y que se denominan "Victoria". Esta Cooperativa

LA BATALLA DE AFRICA

Los ejércitos británicos conquistaron la totalidad del gran imperio colonial italiano en Africa, de una extensión de 1,346,000 millas cuadradas y de una población de 12,988,000 habitantes.

Durante las campañas africanas fueron capturados o destruidos por las tropas británicas y aliadas 2,500 tanques, 6,200 cañones y 70,000 camiones.

En la campaña del este de Africa las fuerzas mandadas por los generales Cunningham y Platt conquistaron en pocos meses Abisinia, siendo así el primer país en ser liberado el país que fué también el primero en caer bajo la agresión del Eje.

En la campaña final del Norte de Africa, el Octavo Ejército británico al mando de los Generales Alexander y Montgomery derrotó a las fuerzas del Eje en la victoriosa batalla de Egipto, derrotando a El Alemán en los meses de Octubre y Noviembre de 1942.

Sir Arthur Tedder, Mariscal de la Aviación, cuyas nuevas técnicas empleadas en Africa fueron factor decisivo de la victoria aliada.

El Primer Ejército británico recibió con sus tropas de paracaídas el movimiento aliado en el teatro tunecino, en el mes de noviembre de 1942.

Los ejércitos enemigos fueron destruidos y completamente desmantelados en Túnez, cayendo prisioneros su comandante en jefe y muchos empresarios limonenses prepararon cargamentos de "cedro macho" para iniciar los

able concurso de la administración militar británica. 120,000 camiones ayudaron a llevar hasta sus puntos de destino las 2,400 toneladas de toda clase de provisiones que eran suministradas diariamente a las tropas británicas en constante avance.

El 76% de los contingentes del Octavo Ejército y el 90% de los del Primer Ejército, en Túnez fué integrados tropas originarias de la propia Gran Bretaña.

DIEZ AÑOS MAS DE AUGE PARA LA INDUSTRIA MADERERA

El "cedro macho" que antes se exportaba a Alemania irá ahora a los Estados Unidos.

LOS EMPRESARIOS DE LA ZONA ATLANTICA PREVEN DIAS DE HUELGA ECONOMICA

Al normalizarse los servicios navieros entre puerto Limón y los E. Unidos, que ya no es muy tardado, se va a reanudar la exportación de maderas de la zona Atlántica hacia ese mercado ya que muchos empresarios limonenses prepararon cargamentos de "cedro macho" para iniciar los

SEÑOR GANADERO:
¡No se deje engañar!
PARA MANTENER SUS ANIMALES SANOS
FRESCOSAL
PARA SUS GANADOS, SALUD!

LOS DOLOROS DE CINTURA
DESAPARECEN
cuando los riñones vuelven
a la normalidad

Si usted padece frecuentes dolores
de cintura, es muy probable que sus
riñones no funcionan bien.
Entre los de quienes más aterrorados
del organismo, están los
riñones. Actúan como
filtros, encargados de
eliminar de la sangre
las impurezas y venenos.
Los riñones dé-
biles e inactivos no
pueden realizar esta tarea
en debida forma. Muestran
su poca actividad cuando no podrá
aliviar sus dolores serenos o agudos.
He aquí por que las Píldoras
De Witt para los Riñones y la
Vejeja son elaboradas especial-
mente para que obren diver-
samente sobre los riñones. Por
este motivo alivian los dolores
de cintura desde las primeras
horas. Dentro de las 24
horas de haber empezado a
tomarlas, la orina se torna
amplia. Esto demuestra que el
medicamento que contienen las
Píldoras De Witt ejerce su acción en
la propia raíz del mal: en los riñones.
Tan pronto como llegan a los riñones,
los ingredientes medicinales de
las Píldoras De Witt ejercen su
acción benéfica, aliviando la inflamación,
descongestionando y restableciendo
el buen funcionamiento de
dichos órganos. Al mismo tiempo,
un notable antiséptico libra los riñones
de las impurezas y venenos que
los obstruyen. Pronto los riñones
vuelven a la normalidad. Los venenos
e impurezas son eliminados de
la sangre. Sus dolores en la cintura
o conjunturas desaparecen.
Si usted padece dolores de cintura,
debe tratarlos en forma. Combata
directamente la causa verdadera del
mal, con las—

DE SAN JOSE
Después de algunos días de per-
manencia en San José regresaron
a Limón doña Nini de Robles y
su señorita hija Marta.

Cur Cotoni y doña Tetela de Coto-
ni del grave accidente que sufrió
hace unos días. Mucho nos alegramos.

PARA SAN JOSE
Regresaron a San José, después
de algunas semanas de verano
entre nosotros, el Lic. don Fran-
cisco Fonseca Chamier, su seño-
ra esposa y sus hijos.

NOTA DE DUELO
Después de una corta enferme-
dad falleció en San José el 7 de
los corrientes la estimable dama
doña Elena v. de Morda, madre
política de nuestro estimado ami-
go don Carlos Mora Aguilar.

DE SAN JOSE
Se encuentra entre nosotros
pasando una corta temporada el
Lic. Paul Chaverri y su señora
esposa.

Al dar esta triste noticia en
viamos nuestra sincera expresión
de condolencia a don Carlos, su
señora esposa y sus hijos don Te-
más y don Carlos Luis Mora Ma-
ría.

DE SAN JOSE
A pasar unos días entre nos-
otros llegaron a San José doña
Ruth de Oreamuno y su hija la
señorita Jessie.

A WARTIME RESTRICTION THAT SHOULD BE REMOVED

The termination of the previous restriction has been the cause of lifting many wartime restrictions and in turn bring about the restoration of full liberties in many countries.

In this connection we desire to comment on the matter of retaining correspondence to foreign countries, which to the best of our knowledge continues to be sent to the San Jose General Office and then be dispatched from there to the places of destination, respectively.

Taking into consideration that the ocean is being freed of its dangers by belligerent activities in a condition which permits the resumption of maritime service

Why you should be a subscriber To The ATLANTIC VOICE

A few reasons why every English speaking person ought to read the "Atlantic Voice".

In every issue this news organ carries the most important of local notices so that the unfamiliar with the Spanish language will be kept informed and be able to evade many embarrassing positions. In every issue through the very good offices of Mr. O. R. Bruce, the Press Officer of His Britannic Majesty's Legation in San Jose, the Bulletin from Britain feed our intellect with unbiased industrial,

economic, scientific, political and other reviews.

The "Atlantic Voice" is not based upon any particular Creed or Racial distinction; honours the weak as well as the strong; gives deserving regard to the poor as well as to the rich, gives no particular section, but the best of interest of all human creatures.

We give a fair analysis of the week's happenings; thus keeping our esteemed readers abreast of the time. The value of this information far exceeds the small financial sacrifice of twenty five cents a copy for the paper.

In this connection we solicit the further assistance of our readers by showing the Subscription Blank below to any person who attempts to borrow a read; thus increasing our list of subscribers.

OIL DEPOSIT DISCOVERED AT PUERTO CABEZAS, NICARAGUA

By a radio broadcast we learned that large oil deposits have been recently discovered at Puerto Cabezas, Nicaragua, our sister Republic to the North, and that the financial foreign interests have already advanced their desire to start exploration in the region mentioned.

The realization of this discovery will be without doubt a silver lining which appears behind the dark cloud of unemployment which is now overshadowing many parts of this continent.

IN FURTHER SUPPORT FROM OUR DESK
By the Editor

These columns are being graced with the highly presentable photograph of Lic. don Teodoro Picado, His Excellency, the President of Costa Rica, who was mandated on February the 13th, 1944. A little over two years ago he became the Chief Magistrate by an overwhelming number of votes by his fellow nationals; and today the nation's choice re-informed by the Republican National Party has obtained further support to continue the exercise of his wisdom in the guidance of the destinies of the Republic and people; this became evident by the voting for the Congressmen and Suplentes on Sunday the 10th instant.

The victory gives rise to the implicit confidence and admiration that the greatest majority of those entitled to vote have placed in His Excellency; and there are good reasons to believe that he also earns an equally warm and loving spot in the hearts of the greatest number of those who were not able to vote.

According to the figures obtained at this writing the Government and friendly party was the recipient of 54,746 votes and the Combined Opposition 39,562; giving San Jose a total contribution of 14,558; Opposition 14,321; Vanguardia Popular 5,565; Republican 866 and Dr. Villalon 381.

In line with the Congressional election; twelve belong to the National Republican Party and four Suplentes; the Combined Opposition 9 deputies and 4 suplentes; Vanguardia Popular 2 Congressmen and 1 Suplente. Among those elected we are highly pleased with the exercise of sound appreciation and good judgment by Limonenses in having returned the Honourable Francisco Fonseca Chamier to the Legislature—a statesman who has blazed a trail for the people and province. In fact we have recorded gleaming services that Lic. Fonseca has rendered our people wherever they confront him in the Capital in times of difficulties and as we so amicably call him—Don Pato is always ready and willing to seek the cure for the ills of those appealing to him. We extend also the same high appreciation for the Honourable Daniel Zaldon who has been serving faithfully for many terms in the Chamber of Deputies.

It is safe to say that Limon has not only contributed to the election of President Teodoro Picado, but has also sent and keep to support him with a tower of energy and wisdom in his Congress in the person of the Honourable Francisco Fonseca Chamier and his Suplente. **—are power to him!**

CORN COOPERATION TO BE ESTABLISHED

VALIANT AGE

Then a hail was severely dazed by enemy action, priority Philosophers, a Hornsey No. Club whose ages ranged from 62 to 90, carried out their repairs.

When they finished the job, the building was wrecked a second time, but they took even philosophical and put the matter in order again.

rocket finally did more damage than the other two bombs together and the work of setting the building has taken further longer.

Veteran repair squad has completed its self-appointed task for the third time and are in a victory celebration in the renovated building.

They have had to repair the walls, the fittings and the roof, to say nothing of the windows, said by A. J. Blake, the 74-year-old Secretary.

News (London)

IMPORTANT NOTICE

The time limit for the Renovation of Residential Cedula is from the month of January to March each year and it must be borne in mind that each possessor of this document is to comply with the requirements of the law; failure will result in a very embarrassing position for the alien residing in the territories of the Republic.

We take this opportunity to correct a floating misrepresentation given at some of the small districts in this zone—that the presence of the official photographer at the Limon Governor's office is in connection with the

emission of new Identification Cedula, that is not true; the present photograph-taking is for such men who had not taken out the 1937 Cedula and the then boys who have now arrived at the age of manhood.

TALKS OF THIRD WORLD WAR

By a press report we gleaned that talks of a Third World War have been mentioned in Washington; the Capital of the great North American Republic. It was stated that the two previous great wars were outside of the United States of America, but seeming the new dragon will head directly at the nation as its objective. However, the bitter lesson by Hitler and Mussolini as well as by Tojo has been well comprehended and the nation has in hand the necessary forces.

COMFORTS OF HOME

During the monsoon in Burma work had to stop when the rains started and the aircraft were covered with whatever was available.

Even when covered the aircraft suffered from the splashing of the heavy rain. Nothing could afford protection from the water and vapor steaming up from the sodden ground. The ground crews had to move warily when lifting the coverings and stripping the aircraft. Scorpions and

centipedes habitually settled in the many niches which the aero engines and fuselages offer. Snakes liked to curl up under the coverings and coxicks. On test pilot found that out when the

ing at 5,000 feet. He was wearing gloves, and though the snake struck twice it did not penetrate. He killed it and threw it out.

Unpleasant Information

The information is to hand that the wheat's highest supply is now swinging on defective hinges with a threatened shortage of approximately five million tons during the first six months of the year in course. This is due to the fact that the wheat growing countries have clearly exported almost all their 1943 production and in consequence the wheat now in growth will not come to maturity before the early months of 1947.

It has been also gleaned that India, one of the front line rice producing countries has had it set back as a consequence of torrential rains and other abnormal conditions;—this rice shortage will eventually place a keener strain on wheat supply. The shortage on these items of food should be given serious thought, particularly the wheat. It is not too early to commence to economize on the use of wheat flour and in the meantime try to bring into realization

the proposed manufacturing of cassava and other local products to help along our daily dietary. We can punch new holes in our belts and begin to train the appetite with the expectation of being faced with other deficiencies due to the devastation wrought upon the cereal and other food stuffs in Asia and Europe; not until those countries regain their high productive positions before the clouds of deficit will disappear.

CHANDLER W. EHRMAN, Manager

THE NEW SECRETARY

Heading the list of those engaged in secretarial duties in this city, quite naturally, is the Secretary to our beloved Governor, don Abel Robles.

We write these lines in full gratefulness to the Governor and others concerned in having employed don Enrique Arrazola.

The Director of this "Weekly", free of any freak of partial views, the writer believes that don Enrique merits the confidence reposed and the honour conferred upon him and we enter, with no doubt that he will prove himself worthy.

Long years ago much in ad-

vance of our journalistic association we had viewed with admiration his great executive capabilities as the then Chief of the city Sanitary work, before, and after, jointly with our ex-Congressman, Dr. Francisco Carlos Umaña Cordero.

YOUR ATTENTION PLEASE

The Management of this indispensable news organ has been under a heavy financial strain during the years of war, due to the very high cost exacted by our San Jose printers. Hope was centered that with the termination of the conflict the burden of printing would have been lightened; but instead its weight has been almost doubled; a condition which has forced us to appeal to our esteemed advertisers and readers to help us to carry the load by an increase in the advertising rates as well as an increase in the subscription rate from seventy five cents to one colon per month with the understanding that a single copy of the ATLANTIC VOICE will now be sold at twenty five cents. The new rates will in no way be adequate to balance the cost of production, but we dare not ask you to pay higher and we dare not deny you the valuable service of the newspaper.

The foundation laid down in that branch of the city system owes a debt to those earlier officers, a foundation which outwardly we have not seen any illuminating improvement in these latter days.

Mr. Arrazola's occupancy in the Administrator's office of the Municipal Market has left his imprint along executive lines. In comparison to the cleanliness and general up-to-the-eye condition the Limon market takes first place among others in the Province and we trust his young successor will follow in his footsteps.

The Management will have to devise further ways and means to manufacture bricks from sludge. We sincerely solicit your continuous co-operation and support.

A COMELY WEDDING CELEBRATION

Choosing Miss Joyce Brown of Pocos on the Old Line as his charming bride, Mr. Anthony Allen Forbes formerly of Paucaris joined the dignified and respected order of Benedict.
At the six o'clock evening hour of Sunday the 10th instant, in the city Cathedral and with the Reverend Fr. Jolin officiating, the imposing couple took the sacred matrimonial vows in the presence of Mrs. Josefa Hilarion and Mr. Carl Edward Neil as principal sponsors; additional witnesses to the marriage were Mrs. Adelin Allen, the groom's sisters, the Misses Vera—Dowell—Lamita Allen—Horten—Pamome and Agatha Pantan.
The bride was very demure in her bridal attire, a fastidious, 1946 creation. Her countenance was very pleasing; capturing its rays in perfect complexion of the man she has given

FROM THE MAIL BOX

It was no bluff at Munich according to the German Press introduced in evidence, at Nuremberg prove that Hitler was bluffing at the Munich conference in 1938. The Munich pact was signed, in fact just two days before the date fixed for execution of orders to "Slovakia by military action". If Sir Nevill Chamberlain and Daladier did not sign the Munich Pact, they were ready to launch Germany and air forces against Czechoslovakia with even Hungary in the rear. This it can be argued that appeasement at Munich however dearly it cost our country, assured Great Britain and France, as it turned out the more year of peace. If it had been Hitler's bluffing ended some time between the march into the Rhineland and the Munich conference, historians may be better able to appraise the effects of some of the later turns of the war. Did the year's breath spell provided by appeasement at Munich for instance, mean the difference between British success and failure in the Battle of Britain in 1940? Did it make Hitler's success in 1939 and 1940 because of elimination of one of the best

WITH THE PORT LIMON BRANCH N° 13

The members of the Port Limon Branch No. 134 of the Jamaica Rural Concrete Society will swell the congregation in the city Methodist Church, tomorrow, Sunday at the seven o'clock evening hour in the observance of the Society's 15th Anniversary Service.

The Reverend J. P. Hall, Minister of the Church will conduct the divine worship.

The local membership of the local Branch are to assemble in the St. Mark's Hall at 6 o'clock sharp and from 6 o'clock to 7 o'clock march to the Methodist Church.

Great is our sympathy for the people of England who have but yesterday emerged from six years of warfare on Saturday. Week and they have been visited by an almost devastating storm of tempest that has been described as being the heaviest in the last forty years—rendering them almost homeless. It is mentioned that the water has risen to the height of eight feet

PERSONALIA

On our visit to San Jose a week ago we had the very distinguished honour of contacting a number of our former citizens, among these we were specially pleased to make known their cordial greetings to all Limoneres, were Don Alfredo Caffa, the ex-president of the Limon Auxiliary Red Cross Committee and Mr. Contreras formerly of the Merchandise Department of the Costa Rica Banana Company and who is now in the employment of a crisp and valuable stamped paper.

Among the distinguished spectators were Lic. Fonseca and children, Lic. Daniel Zeledon, General Monge, Don Victor Casco and several other first line citizens. The treat was well received.

We are passing along with deep sympathy the news in connection with the illness of our very good friend, Mr. Robert F. Buchanan, who visited San Jose a week ago to seek special medical attention. Mr. Buchanan is a very valuable member in our spiritual, economic, religious and social life. May the fibre of his life be doubly reinforced.

Miss Mavis Williams of the Siquirres township is a welcome addition to our community. She is very cordially greeted and we bespeak for her every good result in her dressmaking and general fancy work activities.

Miss Margaret Steele de Loggia who has returned from an extended vacation abroad. She represents a very robust human picture with all the bloom of health as sunbeams on her countenance.

Mrs. Ortenze Steele, the esteemed wife of Don Clifford Steele of the Excelsior Tailoring Establishment, is unfortunately under the grip of ill health and went to the Capital in the course of last week to secure special medical treatment. She was visited by her husband. We wish for her complete recuperation of her former sound health.

We are passing along with deep sympathy the news in connection with the illness of our very good friend, Mr. Robert F. Buchanan, who visited San Jose a week ago to seek special medical attention. Mr. Buchanan is a very valuable member in our spiritual, economic, religious and social life. May the fibre of his life be doubly reinforced.

ON THE SICK LIST

We announce with sorrow the illness of Mr. Claudio McPhin, the operator of the motor car, assigned to the Assistant General Manager of the Costa Rica Banana Company. Mr. McPhin, accompanied by his esteemed wife and friend, Mrs. Maria Gordon Hammond, left on Monday's passenger train for the Capital where the first named will enter hospital for surgical treatment.

Equally sorry we are to receive from our visitor, Mrs. Margaret Cyrus de Wilson is not enjoying the best of health during the latter days of her stay with us. However, we do hope she will soon come to her feet again and be up and doing.

PIGEON POST

During one period of 8 months, some 320 messages were sent from R. A. F. aircraft by pigeon, and 307 were delivered. It is estimated that between 26% and 96% of the birds arrive at their destination. Security is one great point in favor of their use. A wireless message is easy to intercept, but even with a machine gun, it is difficult to bring down a racing pigeon. To shoot at a pigeon in Britain was an act of sabotage.

HAPPY BIRTHDAY

Here is wishing Miss Lidia Fisher of Puntarenas, a right happy Birthday which registers today, Saturday the 10th instant. The honoree is the daughter of our cricketer, Mr. J. Fisher and prior to her taking up her abode at Puntarenas she was very popular figure among our same people. May she be the recipient of many more birth anniversaries.

BULLETINS FROM BRITAIN

FUEL CONSUMPTION SUCCESSFULLY CUT

The civil aviation industry of Britain in a few years time, the most vital in the world, will be able to fly the most efficient and most economical aircraft the world has ever known, without undue expenditure of time when flying the United States, at present, the building almost a monopoly of the building of air-liners, is being financed by the British Government.

One of the first Whittle motors was sent to the United States to indicate American aero engineers into British progress, and the world lead held by Britain there has since been more than retained. First proof of this was in the Meteor's speed record which, 1 prophesy, no one will pull down until we do it ourselves next summer. But, more important than the 606 miles per hour of Group Captain Wilson, is the new that Britain now has three different makes of jet aircraft engines whose fuel consumption has been so reduced as to make them economic propositions for long haul air line work. All these engines are capable of an Atlantic flight.

One of the first Whittle motors was sent to the United States to indicate American aero engineers into British progress, and the world lead held by Britain there has since been more than retained. First proof of this was in the Meteor's speed record which, 1 prophesy, no one will pull down until we do it ourselves next summer. But, more important than the 606 miles per hour of Group Captain Wilson, is the new that Britain now has three different makes of jet aircraft engines whose fuel consumption has been so reduced as to make them economic propositions for long haul air line work. All these engines are capable of an Atlantic flight.

With all these engines now flying, it seems to me that the future of the British aircraft industry is assured. Better engines are on their way and even better ones are being designed. It is unfortunate that engine development has so far outstripped airframe construction but that is now true of all countries.

Where, for instance, is the perfect safe pressurized air liner to use those trans Atlantic jet motors which give 500 m. p. h. at 40,000 feet? We may have to wait two years for it but, after that, the British air liners should be literally on top of the world.

THE STORY OF A GREAT ACHIEVEMENT

For the first time it is possible to tell the story of one of the most spectacular production achievements of the war. The scene is the Gold Coast, one of the four territories which constitute British West Africa and the theme is bauxite, a mineral essential in the construction of all but wooden aircraft. Before the war the Gold Coast exports principally cocoa, gold, diamonds and manganese. Bauxite deposits had been located but remained undeveloped.

In 1942, following the defeats in the East and Europe, the Gold Coast received an urgent call for its bauxite. A rapid survey of the deposits showed that of the two most suitable for development on, formed the core of a 2,500 foot mountain, 200 miles from the coast in densely forested country. No road led to this mountain top, and the railway ran through a town and far from the foot of the escarpment. The first task was to build a road from the mountain top to the railway. It involved finding a way down the forested face of the mountain, frequently across almost vertical slopes.

On November 27th, 1942, one European and a party of Africans went into the "bush" to make the first survey. Little more than a fortnight later, 5,000 Africans had begun the work of construction. In 110 days they did the work and on March 25th, 1943, heavy lorries delivered the first loads of bauxite from the mountain top to the railway. Since then, scores of thousands of tons of bauxite have been removed from that mountain top and added to more scores of thousands of tons from a second site.

ROLLS ROYCE NENE

The latest in military jet engines is the Rolls Royce Nene, which produces over 5,000 lbs. of thrust (1,000 lbs. more than the Derwent) at 12,500 revolutions per minute. The Nene was designed, developed and passed for flying all in six months. It was experimentally flown in a Lockheed Shooting Star, giving that aircraft a much better performance than it had with the United States built turbojet which normally powers it. The Nene weighs only 1,550 lbs. for its 7,000 horse power, and has a fuel consumption of 1.08 lbs. per lb. thrust per hour.

With all these engines now flying, it seems to me that the future of the British aircraft industry is assured. Better engines are on their way and even better ones are being designed. It is unfortunate that engine development has so far outstripped airframe construction but that is now true of all countries.

Where, for instance, is the perfect safe pressurized air liner to use those trans Atlantic jet motors which give 500 m. p. h. at 40,000 feet? We may have to wait two years for it but, after that, the British air liners should be literally on top of the world.

DAMAGE BY ROCKETS

Each German rocket which landed on London damaged between 600 and 700 houses, while each flying bomb damaged 400 dwellings. The Ministry of Health disclosed in its annual report.

The V weapons sent nearly as many to shelters as at the height of the 1940-41 blitz. A count on June 30, 1944, showed 47,400 people using shelters, only 8,000 fewer than sheltered from Nazi bombers.

Nearly 1,250,000 London residents led the danger area, including July and September, 1944 (including 285,000 mothers and children and 101,000 unaccompanied children) moved in organized parties, the report disclosed.

London first-aid posts handled 38,000 casualties, rest centers cared for 17,000 homeless and 191,000 were placed in new homes by billeting and rehousing during the "V-blitz".

The report also said that before the invasion of Normandy nearly 1,000 London doctors, nurses and medical students were moved to south coast hospitals.

In the first week after the invasion on June 6, 10,439 wounded men from Normandy and the Channel—far less than the number expected—were treated in south coast hospitals.

CHASED BY OUR OWN BOMB

To be chased by their own bomb was the amazing experience of a pilot during an attack on a railway in Siam. They brought pictures back to their base to prove it.

"We had just bombed the railway," said the pilot, W/O Dave Gallagher (Wairoa), "when I suddenly heard the tail-gunner yell, 'Our bombs are following us.' Sure enough, there was a bomb chasing along behind us. It shook us all. Later we realized that the tail had come off one of our bombs as it fell, causing it to bounce on the track and skip up 600 feet in full forward flight. Luckily, our cameras recorded the incident, as no one at base would have believed us."

"I suppose it is really very difficult for your A.D.C. always to put your guests in their right places?" "Not at all," said Sir Mark

THE WORLD'S BEST PILOTS

By Charles Gardner. The of the theatre subjects of discussion, whenever Britain's flying men meet, is the relative merit of Service and commercial pilots. It has even been known to lead to quite vigorous discussion.

In the past, however, and certainly before World War II, it was inescapable that the civilian pilot, who made his living by flying on goods in commercial aircraft, was better trained, more experienced and more reliable than the average fighter or bomber pilot of any Air Force.

In Britain, recently the Royal Air Force took the first steps to redress this difference and published their minimum requirements for their pilot candidates. These requirements were such that all Britain's Service pilots are fully qualified to fly to the sort of weather which British endures for nine months out of the twelve.

"White" and "Green" In the first place all pilots of the R. A. F., other than those who only fly in "Wing Commander's" "Weather" (ten-tenths blue sky) will have to have an instrument flying rating. This rating is in two categories the "white" and the "green".

To get a white instrument ticket the pilot has to submit to a tough examination in blind, with only instruments to guide him. The examiner will put the aircraft into uncomfortable and unusual positions, and demand minimum loss of height. After

to get a white instrument ticket the pilot has to submit to a tough examination in blind, with only instruments to guide him. The examiner will put the aircraft into uncomfortable and unusual positions, and demand minimum loss of height. After

CHASING BY OUR OWN BOMB

RAPIER RETORT

Sir Mark Young, Governor of Hong Kong, has been liberated. He is the hero of many stories illustrating a rapier-like wit. One of the best is that of the lady, lunching at Government House, who was aggrieved to find herself on Sir Mark's left instead of his right.

She approached her grievance obliquely — but mad, it fairly obvious. Finally she remarked: "I suppose it is really very difficult for your A.D.C. always to put your guests in their right places?" "Not at all," said Sir Mark

A FOUL DEAL

An echo has reached us from the Mac Arthur's Baseball Club of San José in regard to what is considered as a "FOUL DEAL" on the part of Tim Mena, Ace Pitcher who was invited to the San José baseball diamond under the auspices of the General McArthur's Club, and after being afforded a very cordial treatment by the Management as well as by his team mates of colour, he has deserted them for the white camp; rather inconsiderate towards present day racial affinity.

As we gather the McArthur's team is very appreciative and very mindful of the fact that it was Mena's pitching which contributed in an overwhelming measure to the championship honours that have been bestowed upon them in the baseball series of last year, but in spite of his turning turtle, the boys whom he has abandoned, true to the name of the great General which they bear and who has vanquished the Japanese terrorists; they will play ball this year and go over the top again with the Elimination and National Championship, and perhaps, Mena too, will crumble at their feet.

NEW TO THE CITY BUT COMPETENT

Since you are to wear dresses and other garments, then ladies you should have them well designed and properly needed and exquisitely fitted.

It is a nice feeling to have people admiring your dress and of course we know that art of dressmaking; and we know to

"PRETTIFY" your appearance.

Try us today; do not hesitate. Call at the residence of Mrs. Albertina Smith on fourth Avenue; two doors from the residence of Mr. and Mrs. Peter Blackman!
