

LA VOZ ATLANTICA

SEMANARIO INDEPENDIENTE

AÑO X — PUERTO LIMON, COSTA RICA, SABADO 24 DE FEBRERO DE 1945 — NUMERO 456

DENTRO DE POCOS DIAS SERAN COMENZADAS LAS REPARACIONES DEL MERCADO MUNICIPAL

Volverá a funcionar la refrigeradora de carnes que tanta falta está haciendo

Dentro de pocos días se dará comienzo a las reparaciones en el Mercado Municipal, que habrán sido postpuestas en espera de un préstamo que está gestionando la Municipalidad con los bancos.

El proyecto de reparaciones es más que todo la ampliación del mercado de carnes haciéndolo más amplio, fresco y cómodo. Se piensa utilizar dos de los tramos que dan al frente sur y sustituir las paredes interiores de las car-

nicerías a fin de darles mayor claridad y ventilación.

Igualmente volverá a ponerse en servicio la cámara refrigeradora de carne que estaba sin uso por la falta absoluta de gas amoníaco. La voz durante mucho tiempo cuantas gestiones fué posible para conseguir el gas suficiente sin locorrio. Ahora ha sido posible adquirir el gas necesario y tendrá un experto de San José

a hacerle las reparaciones necesarias y dejarla en perfecto estado.

Esta medida del señor Gobernador es de mucha importancia porque la carne que se consume en Limón es demasiado fresca y resulta muy dura. Es necesario mantenerla por lo menos veinticuatro horas en la cámara refrigeradora para que esté en condiciones de comerse.

UN MILLON Y MEDIO DE RACIMOS DE BANANO EXPORTARA LA PROVINCIA DE LIMON ESTE AÑO

El promedio de exportaciones de fruta de esta zona a Florida ha ido subiendo paulatinamente y ya se está en la cantidad de siete mil racimos semanales

Los agricultores de esa región piden al ejecutivo que haga cuanto esté a su alcance para estimular esas exportaciones de fruta

Un estimado amigo y colaborador de nuestro periódico, nos facilitó el informe de que las exportaciones de banano de esta región hechas por la empresa que envía a la Florida semanalmente cargamentos de fruta, llegan ya a un promedio de seis a siete mil racimos.

Según sus cálculos, que por otra parte coinciden con los datos oficiales, se estima que en este año aumentarán las exportaciones de fruta y que puede llegar a un millón y medio de racimos, lo cual significa una magnífica entrada para dicha provincia.

Por otra parte, los pequeños barcos en los que semanalmente

se hacen las exportaciones, transportan además cargamento de mercaderías a nuestro país, con lo cual se hace facultades al comercio y el fisco obtiene un ingreso regular de la renta de aduanas de Limón.

Estos informes vienen a demostrar que es de gran conveniencia para la República el que se mantengan esas exportaciones y se estimulen por todos los medios al alcance del gobierno, ya que es riqueza efectiva para el país el oro que ingresa como producto de las ventas de banano al exterior.

BATTAN TOTALMENTE LIMONIA DE JAPONESSES

CUARTEL GENERAL DE MAC ARTHUR EN LUZON, 22 DE FEBRERO. — El general Mac Arthur anuncia que la península de Bataan ha sido totalmente despojada de enemigos y que las tropas norteamericanas continúan eliminando los bolsos de resistencia en el Corregidor y Manila. Asegura el anuncio que la artillería norteamericana está demoliendo las murallas que sirven de protección a los japoneses que luchan en el sur de Manila y que no ha de demorarse un asalto de la infantería.

DENUNCIASE UN DESPIDO COLECTIVO DE TRABAJADORES EN SIXAOLA

Los personeros de la Compañía ante el requerimiento del Inspector de Trabajo respectivo niegan la versión, pero dispusieron investigar el caso

Se denunció ante la Inspección General de Trabajo el despido de muchos trabajadores de las fincas de la Compañía Bananera ubicadas en Sixaola, alegándose que a estos trabajadores cesantes no se les pagaron las prestaciones de ley. Piden al mismo tiempo el envío de un Inspector, a fin de que establezca la verdad de tal denuncia.

Se denunció ante la Inspección General de Trabajo el despido de muchos trabajadores de las fincas de la Compañía Bananera ubicadas en Sixaola, alegándose que a estos trabajadores cesantes no se les pagaron las prestaciones de ley. Piden al mismo tiempo el envío de un Inspector, a fin de que establezca la verdad de tal denuncia.

La Inspección, previamente al envío de dicho funcionario, dis-

EL NUEVO ITINERARIO DE TRENES ENTRE SAN JOSE Y LIMON, COMPRENDEN UN TREN EXTRA QUE HARA SOLAMENTE TRES PARADAS Y LLEGARA A SAN JOSE EN CUATRO HORAS

Ampliando nuestra información de la semana pasada sobre el nuevo itinerario de trenes que será inaugurado dentro de pocas semanas, podemos informar que habrá un carro, sistema bus, que hará el servicio expreso entre Limón y San José y viceversa. El

recorrido durará aproximadamente cuatro horas y sólo habrá dos paradas, que serán en Siquirres y Turrialba.

Los motores para estos coches automotrices llegaron ya y están siendo debidamente instalados.

LA SECRETARIA DE GOBERNACION ANULA LA PATENTE DE LICORES EN 26 MILLAS, A PARTIR DEL CUARTO TRIMESTRE DE 1944

Desde el mes de Agosto del año pasado, el comerciante chino Sut Fong, solicitó la anulación de la patente de licores que remató para su establecimiento de 26 millas. Alegó el interesado que no había podido conseguir local para establecer, que la publicación del remate había sido sin el tiempo que la ley ordena y que el censo levantado en ese lugar no había sido aceptado como bueno por la oficina de estadística.

La Corporación Municipal no estimó aceptables las razones expuestas y envió en apelación los documentos necesarios a la Secretaría de Gobernación para que

allí se resolviera. Ahora, con fecha 7 de febrero, la Secretaría de Gobernación acepta la apelación interpuesta por el comerciante chino y anula la patente haciendo buenas las razones del interesado. Por ser demasiado extensa la resolución a que nos referimos, publicamos la parte final que pone término al litigio.

El Presidente de la República RESUELVE.

Declarar con lugar en la forma que se dirá, la apelación interpuesta por el señor Sut Fong Ng.

contra el artículo 30 de la sesión 119 ordinaria celebrada por la Municipalidad del cantón central de Limón el 10 de octubre de 1944, declarando la nulidad del pacto de licores a él adjudicado para Veintidós Millas, a partir del cuarto trimestre inclusive de 1944. La Municipalidad debe hacerle devolución de las sumas por el pagadas por concepto de esa patente, a partir del cuarto trimestre del año recién pasado.

Retruébo, PICADO. — El Secretario de Estado, encargado del Despacho de Gobernación, HERMAN ZAMORA ELIZONDO.

PARA SAN JOSE

Regreso a San José después de una corta temporada entre nosotros, doña Hilda Sotela de Velázquez.

DE SAN JOSE

Estuvo en esta ciudad a visitar a su señora madre, doña María Unfriz de Ramirez.

LA BATALLA DE IWO JIMA

GUAM 22 UP.—Aunque no estáticamente pesimista el día siguiente a la batalla de Iwo Jima, el ejército japonés sufrió una gran pérdida de efectivos al caer el monte Suribachi. Con el avance de las tropas norteamericanas se produjeron en la batalla de Iwo Jima grandes pérdidas en la conquista de esta isla. Los japoneses sufrieron tres mil cien muertos en 24 días y en Guam 7 080 bajas totales incluyendo 1 280 muertos. Las bajas japonesas abarcaron las bajas norteamericanas en Iwo Jima al haber caído mil desde el mes de enero y aseguró que unidades aéreas y navales hundieron las embarcaciones y un acorazado, además de otras dos unidades no identificadas.

FUERZAS DE PATTON CONQUISTARON EL PUEBLO DE NENS ALEMANAS

CON EL TERCER EJERCITO NORTeamERICANO 23 UP.—El día 24 cruz el río Danube. El ejército de Patton avanzó otros cinco kilómetros en un frente de 80 kilómetros y capturó a otros 23 prisioneros alemanes. El tercer ejército de Patton avanzó hasta el río Danubio y se preparó para avanzar hacia el este y conquistar toda la región del Danubio por la retaguardia y por los flancos.

Lancha Santa Elena

La nueva tarifa que comenzará a regir el primero de enero de 1945 entre Barra del Colorado, Limón y viceversa, es la siguiente:

Pildoras De Witt

alivian rápidamente los dolores en las coyunturas

Los dolores en las coyunturas y en la cintura le incomodan que sus riñones no funcionan normalmente. Estos órganos están inactivos y acumulando toxinas. Las pildoras De Witt son un remedio eficaz y venenoso, al no ser eliminados de la sangre, se alojan en los músculos y articulaciones. Estas pildoras especialmente de la marca De Witt, al no ser ruidosamente eliminados del organismo, pueden producir dolorosas inflamaciones articulares. Para combatir estas molestias, el funcionamiento normal de sus riñones, especialmente de la marca De Witt, es el remedio más eficaz para aliviar la tensión de los riñones. LOS VECINOS DE CAHUITA SE QUEJAN...

Un grupo de agricultores de Cahuita han venido a nuestras oficinas a manifestarnos su extrañeza de que la Secretaría de Agricultura o el Departamento técnico de esa dependencia no les han prestado atención a las varias solicitudes que han hecho para que se envíe un delgado a combatir una serie de plagas que han invadido sus sembrados. Monos, ardillas y pájaros, en enorme cantidad

Nos dicen los quejosos que después de los grandes temporales de los últimos meses, se han desarrollado una serie de plagas, de diversos animales que está haciendo nulo todo el esfuerzo para recoger sus cosechas.

Nos parece plenamente justificada la queja de los esforzados agricultores de esa zona. Y nos parece que tienen pleno derecho a solicitar la ayuda y el consejo de la Oficina Técnica que funciona bajo el control de la Secretaría de Agricultura.

Aquí, en esta zona atlántica, son pocos los agricultores que estudian técnicamente sus problemas y los resuelven con el apoyo de la ciencia. Los más, pequeños agricultores sin estudio no están en condiciones de defenderse y aceptan pasivamente las calamidades que la naturaleza les impone. Es justo que cuando soliciten ayuda, esta les llegue a tiempo. Si no es para estos casos para que sirva entonces la oficina técnica que trabaja en la Secretaría de Agricultura?

Nosotros recogemos la queja y la elevamos con todo respeto al señor Peralta, seguros de que pondrá remedio a estos olvidos o a estas indiferencias.

Costa Rica

El regidor Echeverría manifestó su voto negativo manifestando que el, como limonense que curó la escuela primaria en esta ciudad, donde por sus largos años ha vivido, quiere dar su constancia del reconocimiento que todos los vecinos desean tener por el Banco de Costa Rica, que se estableció haciendo una fuerte inversión en edificio para sus oficinas, atendida a la economía de la Provincia al conseguir su garantía el precio del terreno. Haciendo fuertes inversiones en sus arrendados negocios. Por el contrario el Banco Nacional, que hay hecho compras de un lote, desistió de construir un edificio y últimamente lo vendió iniciando sus operaciones comerciales y ahora apenas tiene una Agencia Bancaria, teniendo doblado el costo por ser un Banco del Estado, de ciudad en desarrollo de la economía de la Provincia, lo que nunca ha hecho. Agregó que no tiene interés personal en manifestaciones y cree que así defendiendo los intereses de la comunidad.

Los regidores Flemin y Pizarro manifestaron que aunque no han vivido tanto como el señor Echeverría en Limón, siempre y en cualquier parte han dedicado sus esfuerzos a defender los intereses del pueblo, lo que en esta ocasión hacen al votar por la propuesta que mayores facilidades y mejores condiciones a la Corporación Municipal, palabras a la comunidad, palabras representadas.

d) A iniciativa del regidor Esquivel, por unanimidad y definitivamente se acordó nombrar al señor Echeverría como el agradecimiento de la Corporación por los buenos servicios prestados durante el tiempo

que a su cargo de Administración de los rentas municipales y comunicarle a los interesados que si no pudo ser aceptada la propuesta de empréstito que presento por cuanto las condiciones ofrecidas por el Banco Nacional son más favorables a los intereses de la Corporación.

Art. VI.—Cuentas. Para su cancelación con cargo a las rentas que se indican, fueron aprobados los siguientes:—Isaías Hinos. Municipalidad de Limón

LICITACION

Esta Gobernación, debidamente autorizada por la Corporación Municipal, recibirá propuestas de los interesados para ejecutar la siguiente obra:

Limpieza general de una zanja de desagüe situada en Estrada, con una extensión aproximada de 1.000 metros bajo las siguientes condiciones:

- Limpieza de la zanja en toda su longitud, dándole el correspondiente desnivel para que las aguas discurren con facilidad.
- Limpieza del monte que cubre en toda su extensión ambas orillas de la zanja.

Las propuestas se recibirán en sobre cerrado en esta Gobernación, dentro de un plazo de 30 días, contados desde el día de la publicación de este aviso.

La Municipalidad se reserva el derecho de aceptar la oferta que más convenga a sus intereses, o rechazarlas todas si fuere el caso.

Limón, 21 de Febrero de 1945.

ABEL ROBLES,
Gobernador
Ejecutivo Municipal.

Art. VIII.—Moción de los señores regidores del Echeverría hizo moción que fue aprobada para enviar al señor Gobernador a fin de que ordene la reparación de los luzes del parque cuyo mantenimiento está en muy malos condiciones.

b) El regidor Echeverría hizo moción que fue aprobada, para excitar nuevamente al señor Comandante a fin de que por medio de sus subalternos recojan los animales que se

los ambulon por la ciudad, metiendo daños en los parques y a moción del regidor Echeverría se acordó pedirle también que no ponga el ganado a pastar en la plaza de deportes, porque así en estos ocasiones noños en ello.

c) A moción del regidor Flemin se acordó pedir al señor Gobernador que informe por que no se ha pagado el aumento que la municipalidad dispuso para los carceres del servicio de esas cárceles desde el 1º de noviembre de 1944.

A las 21 horas y 40 minutos terminó la sesión.

LA MUNICIPALIDAD DE LIMON

LA TIERRA DEL COBRE

Por HARLEY V. USILL

Conocido comentarista sobre asuntos mundiales y autor de la
"Historia del Pueblo Británico"

Existe un gran número de gentes bien intencionadas que saben poco o nada de la historia de los Imperios Coloniales y que creen que el poseer un Imperio Colonial constituye una ofensa contra la moral pública y privada. Mientras que es verdad que, en ciertos casos, la aparición de los fundadores occidentales de Imperios ha perturbado gravemente los hogares de las antiguas civilizaciones o destruido los sistemas tribales, la suposición demasiado rápidamente aceptada de lo que han hecho ha sido convertir un paraíso terrenal en un paraíso perdido esta fuerza de toda realidad. El noble salvaje sin contar minar conoce perfectamente lo que son las necesidades, enfermedades y luchas san-grientas, y sufre temores constantes de que apenas si se dan cuenta más que aquellos que han hecho un estu-

dio directo de la vida tribal. Hay que recordar también que extensas zonas del mundo han realizado progresos materiales considerables durante los últimos cien años, y hoy resulta imposible acordar áreas enteras de la superficie del globo como masas pasivas que se han añadido a las interesantes costumbres tribales. Los blancos tienen inevitablemente que encontrarse con los negros, y la gran tarea a la que ha de hacer frente la administración británica es la de asegurar una síntesis apropiada entre las demandas legítimas de ambas razas. Como ha dicho ese gran amigo de los pueblos de color, el Dr. Harold Moody: "es posible tocar una determinada melodía en las clases negras y la misma en las blancas, pero una armonía perfecta solo se obtiene cuando las negras y las blancas."

PREGUNTE
A
MUCHOS QUE
FUMABAN
CIGARRILLOS
IMPORTADOS
POR QUE
FUMAN
AHORA
LIBERTY

La Rodesia del Norte suministra un excelente ejemplo del doble problema con que se enfrenta la administración en varios territorios británicos coloniales. Existe en ella una población indígena de 1,400,000 aproximadamente a la que se han añadido unos 11,000 europeos y unos 3,000 asiáticos. Numéricamente puede argüirse que los indígenas deben gobernar el país, pero admitir esto equivale a ignorar las contribuciones fundamentales que ha hecho la minoría al desarrollo del país. Sino hubiese sido por los colonizadores blancos, el cinturón de cobre na-

biese continuado siendo un terreno lleno de maleza y no habría ni carreteras ni ferrocarriles.

Este no es un argumento, como mostraré más tarde, en favor de la explotación de los negros por los blancos, pero quiero tratar de establecer desde el comienzo que los colonizadores europeos tienen derechos legítimos en relación con la construcción que están haciendo al progreso de los territorios que hasta su llegada estaban sin desarrollar. El ejercicio de estos derechos, sin embargo, exige una disposición a asumir considerables responsabilidades hacia el africano, las más importantes de las cuales son las mejoras de su bienestar económico y social y la enseñanza de las artes de gobierno propio, para que a su debido tiempo pueda llegar a desempeñar un papel cada vez mayor en el gobier-

no de los países a los que pertenecen.

PERSONALIA

Mrs. Florence Lawson, a well known Costarrican, who has been abroad for several years, returned a week ago due, mainly, to the recent death of her father. She is heartily welcomed.

Al Campbell of pugilistic fame, spent a few days with us last week. The young Limonense was extended a general hearty welcome and sincere congratulations for his progress in the boxing ring. He stated he was completely bewildered at the unpopular decision of the judges and referee on the occasion of his fight with René Sánchez of Cuba.

MACIA UNA

(Viene de la 1ª Pág.) magnífica cantidad para hacer de Costa Rica lo que ha sido, el tiempo debía haber sido, el plan de formar núcleos de diez campesinos para poner en actividad la producción y facilitarles, dinero, nada más importante que organizar estos núcleos de pequeños agricultores y ayudarles en todo lo posible, pero hay algo muy importante que debe tomarse en cuenta y es las vías de comunicación con que puedan contar, estos núcleos para sacar sus productos a los mercados, la Zona Atlántica cuenta con muy buenas tierras y con núcleos de campesinos dispuestos a trabajarlas, aún cuando contamos con vías férreas por toda la zona también existen proporciones de tierras que no tienen medios fáciles para sacarlos donde están estas vías, se necesita que las Juntas Cantonales de Ca-

minos trabajen por resolver este otro problema. Limón tiene una Junta Cantonal de Caminos integrada por personas muy honorables que ya debían de comenzar a estudiar los medios de habilitar zonas agrícolas, tenemos por ejemplo la zona Sur; los Agricultores de esta fertilísima zona están gestionando con el Gobierno el acondicionamiento de un trécho de vía férrea entre Penshurt y Pando ra, arreglado este trécho que comprende siete millas de vía que está en muy malas condiciones, se debe de estudiar un plan para conectar el resto del sector con esta vía, la lucha que están llevando a cabo los Agricultores de la Empresa Northern Railway Company por reparar este trécho de vía es muy fuerte, aún cuando, por eso mismo, están mala, alegan tales perso-

neros no contar con los materiales necesarios para hacerlo, pero la verdad es que los materiales que se necesitan los produce nuestro país, es cuestión de que esta Empresa no tome en cuenta solo el aspecto comercial para el acondicionamiento de la vía, en el momento en que entramos las Empresas extranjeras deben también colaborar, los efectos de la Guerra los afecta tanto a ellos, como a nosotros. Conviene también pensar en la forma en que se ha de llevar a cabo el plan de organización de núcleos, crea que habiendo organizado a estos núcleos, necesitan al quien quien los dirija y es de consejos técnicos en la materia, contamos en esta zona con inteligente y honrrato joven Ingeniero Agrónomo, este joven que actualmente

es Jefe de la Sección de Agricultura para el Estudio de los problemas del Abacá, Banano y Cacao, bien puede dirigirse y plantar a los núcleos de campesinos que bien lo necesitan, lo importante en estos momentos es poner a producir la tierra de artículos de consumo popular, la Secretaría de Agricultura haría un gran bien a la Zona Atlántica en nombrar a este competente, muchacho, y destarlo con su respectiva oficina en Limón, además de ser un competente Ingeniero es un legítimo hijo de Limón, y por Limón haría él todo lo que esté a su alcance, pero que por ejemplo en el caso del trécho de vía Penshurt - Pando ra, a la Secretaría de Agricultura a la que le conviene decir si están o no en su razón los Agricultores, por

que es propiamente al sector de la Agricultura a quien está perjudicando el mal estado de la citada vía, es por esta razón que quienes tiene la palabra es la Federación de Agricultura. Gran interés ha despertado en los Campesinos el plan de formación de núcleos, por este movimiento está pendiente de lo que antes dijimos, caminos baratos que los pongan en contacto con las vías Férreas.

ALLIED FORCES CLOSING IN ON BERLIN FROM ALL SIDES

Reports emanating from Moscow progress being made by the Allied armies in their advance on the city of Berlin. Moscow stated on the 21st, instant that certain of the Soviet forces had reached a position distant only fifty-five kilometers from Berlin, and that the first Ukrainian army were violently attacking enemy positions in the vicinity of the industrial center and communicating ways of Gueben.

The forces commanded by Marshal Konev are reported to have registered further gains west of the river Queis. Additional gains were also obtained, we are told, in the area southeast of Frankfurt where much of the Nazi opposition had been eliminated. Further north, the Russians had advanced to within thirty kilometers of the border of the old free state of Danzig.

The fierce German counter-offensive launched, some days ago, against the Rus-

sian fighting front had been controlled; it is admitted to have retarded, but in no way checked the Soviet advance.

The concentration of the forces under the command of Marshal Zhukov for the purpose of launching the final attack on Berlin is being rapidly effected, while other forces are supposed to have augmented their offensive in the direction of the Baltic coast. Breslau, the besieged

capital of Silesia, continues to be destroyed by artillery fire, in view of the Nazi garrison's refusal to surrender.

Communication between the stronghold of Frankfurt and Berlin is said to be blocked.

Forces commanded by General Patton have effected an important advance and captured an appreciable number of populated districts. —PASA a la Pág. NUEVE

OFFICIALS OF UNITED FRUIT COMPANY ON A VISIT

The Atlantic Voice is in receipt of the pleasing information that three of the high ranking officials of the United Fruit Company's Headquarters in the United States of America are visitors to our Republic.

The distinguished persons are Mr. Fletcher A. Hatch, Vice President, Dr. Edward Sa Jisbury, a former Superintendent of the local hospital and the present Director of the Medical Department in New York

and Mr. Hartley Rowe, who was at one time Resident Building Engineer, of the Panama Canal.

We are hoping that Limón will be included in their itinerary and so afford Limón the opportunity, at least, of getting a glance at our esteemed former Chief Médico, apart from becoming acquainted with the other two gentlemen.

We add our quota of sincere welcome to those already extended the visitors.

IWO JIMA ISLAND SURROUNDED BY NORTH AMERICAN FLEET

The forces under General MacArthur are successfully pursuing the work of annihilating the remnants of the Japanese troops on the Island of Corregidor, the peninsula of Bataan and the interior of the city of Manila.

The losses suffered by the Japanese on the Island of

Iwo Jima, during the six weeks campaign, amount, it is announced, to more than 92,000, while those of the North American during the same period are given as 12,900, including 2,600 killed.

Admiral Nimitz has announced that the troops, who invaded the strategic Island

of Iwo Jima have consolidated their positions despite the fierce opposition of the Japs.

Units of the North American fleet have completely surrounded Iwo Jima and their cannon incessantly bomb the Japanese positions particularly those in the vicinity of the Suribachi mountain, the conquest of which would permit the invading troops to fully dominate the central part of the Island. The Admiral has also released the information that the Americans experienced an estimated loss of 3,650 men up to the close of the third day's fight on the Island.

On the Asiatic mainland, troops of the 14th. British Army are advancing on the great Burmese city of Mandalay from their position on the river Irrawady.

According to a Washington announcement the recent sinking of 25 Japanese ships has brought the number of vessels sunk by the North American submarines to a total of 1,045 since the start of hostilities.

Experience has proven that the stability and development of any line of industry depends, largely, on the degree of co-operation evinced by those concerned.

It is generally admitted that the voice of the people, chanting in unison, emits its richest melody; and so it is in all things when all speak through a single medium.

Throughout the world co-operative societies have effected the greatest economic good, not only to the members directly concerned, but to the populace of the countries generally. The most ordinary mind has doubtless realized how fruitless it is to endeavour to ignite a single match during a breezy time, while the uniting of several sticks assures ignition. This came difficultly usually presents itself, whenever an effort is made, to obtain some desired betterment in a singular form.

Co-operation, properly, organized and displayed, is a powerful weapon against the forces of evil. Difficulties are more easily solved or prevented by the union of men for a given purpose.

The single handed manner in which we pursued our agricultural activities in the past, particularly that of our Banana industry, will not do for the present or coming years. Large business interests will prefer to deal with properly conducted organizations, than with single individuals. In this connection, we believe the Atlantic Banana Growers Association has every possibility of becoming a wonderful asset to its members. Co-operative marketing for the disposal of their bananas is well within its reach. Every cultivator of Bananas in this zone, should become a member of the newly founded and well established Association and thereby pull together for one aim and one destiny.

YOU ARE HEARTILY WELCOMED.

STIRRING ADDRESS DELIVERED BY BISHOP OF HONDURAS AT BIG WELCOME GIVEN AT WARD THEATRE, KINGSTON, JAMAICA

There was no question about it, contained His Lordship, that unless the Christian Church would, in season and out of season, preach the gospel it was commissioned to preach, and turd the hearts of men to God, there would be no hope for the world. He knew it was comparatively easy to say "that kind of thing to a christian audience, but it was the duty of a christian audience to try and put it in practice.

He did not know if they were aware of it all things for which the Christian Church stood were either ignored or rejected in toto by a very large section of the official element of every country in the world. They ran a very grave risk by trying to reconstruct a shattered civilization on the foundation of Paganism; and if they did that the structure would not last long, and some of the younger people would experience a second and perchance a third catastrophe in their own lives.

It was true that in the course of history the Christian Church had always been faced with a crisis. The original meaning of the word crisis was simply judgment, and every christian's reaction to God's plan carried God's own judgment on himself. It was because

(Conclusion)

individuals and groups had thought they could find all their hearts desires, or perhaps what was even worse that they had found the Kingdom of God and His righteousness in some economic prosperity, or some elaborate scheme of social welfare, that we had got into the state we had.

The challenge of Jesus Christ was really a very practical one. If they took the Sermon on the Mount, they would find when they got to the end of it that the Lord began to talk to His hearers about the things which on our intelligent and honest would be able to effectively lack of these things could harass the lives of people and fray their nerves. Yet with all the authority inherent in Him for He was God Incarnate, He said categorically seek ye first the Kingdom of God and His righteousness and all these things he very things He had been talking about before will be added unto you.

Continuing, the Bishop said, he sometimes thought that the Kingdom of God would be best understood by ordinary people if they regarded it as the social goal to which all mankind was moving. They could not get

out of societies. They must live in societies. And the problems of individual and societies were ever to be solved. They could only be solved embracing and of sufficient authority to command the allegiance of man in every age and in every generation there was no social goal of human which would ever command such an allegiance none but the Kingdom of God, the reign of God in the hearts of men.

Likewise and this he wished to stress above every thing else: their Lord used the word righteousness with deliberation. They would sometimes find that this call of His to seek Kingdom of God and His righteousness was quoted "Seek ye first the Kingdom of God and His Justice" as though justice was going to make a more attractive appeal to a harassed people. The righteousness of God included the justice of God; and if it were merely justice, by itself, it would not be enough.

The could have justice among people whose characters otherwise would not bear inspection, but it was not justice for which people were striving; it was for quality of character which would alone make peace among men. It was the will of men that had been per-

and, so what he would plead with them, as members of the Christian Church to bear in mind that above all things in this age in which they lived, they needed an ever increasing number of men and women and boys and girls in every walk and with God as the pattern in each human life. It was quality we wanted. We were not short of ability nor of the people, who could display such a quality.

SPORT EVENT AT 25 MILES

Bataan Baseballers defeat City Cub by 16 to 11 runs

A very interesting baseball match was witnessed at 25 Miles on Sunday the 15th instant. The contesting players were the Cubs of Limon and the newly organized Boys of the Abaco district. The former were under the management of Mr. Rodolph Johnson, while Mr. George Ernest steered the Bataan players to victory. The game started during the forenoon hour at ten and drew a large and representative number of Fans. The homesters went first to bat, and soon had things their own way. Runs began piling up. A change was effected in the pitching, and George Bobb came on the scene — but the ball went round. One run was scored by A. Crawford for the Bataanites. F. Norari did the pitching for the home side. The final results were Bataan sixteen runs against eleven by the visitors.

The players repaired to the place of refreshment and there participated sumptuously in the good things provided. The occasion presented quite a diversion for 25 Miles, and was highly welcomed.

A LOCAL FAN.

A RECTIFICATION

The Editor.

Dear Sir:

We thank you for the publication in regard to the death, on the 7th instant, of our esteemed fellow resident Mr. James Egbert Jones, but regret the omission of the name of Miss Annette Smith among his survivors; one who so dear to him and had done so much towards his care during his life time.

Very sincerely yours,

Special Correspondent.

LAST SUNDAY'S FOOTBALL ENGAGEMENT

On Sunday, the 18th. instant, our city had the welcomed visit of the excursionists who arrived the previous evening.

As an addition to the other diversions, a game of football was presented on our playground, the participants being players of the Barcelona and Jupiter Sport Clubs. The play was interestingly seasoned with technique, courageous attacks and counterattacks.

Jupiter's triumph, with three goals against a single by their opponents, was due principally, to the finding of their new star, Carlito Haying, the goalie. His defence was greatly admired and heartily cheered. It is evident our young sport enthusiast has gained a source of useful knowledge from his recent trip to Honduras and other Central American points.

The Barcelonians effected many well directed shots but Carlito held the fort. On the other hand, the defence of Barcelona's fortification was exceedingly weak. The goalie, our good young friend, Dailey, is not the rightful sentinel. The flopping inflicted on Barcelona last week and the repetition on this occasion is traceable, impartially, to the mediocre goalkeeping. However classic may be the foot-work of players, if the goalie does not represent a bulwark, their skill is all in vain. This is true of last Sunday's game.

The markings of opponents, by both sides, were watched with great satisfaction and the scene, at times, reached thrilling heights, Jupiter earned two points in the first half time and shut-out Barcelona. The gunners

ter's third; and the hard running Tenorio, at right extreme, gained the only mark for his team. The encounter was well attended by both visitors and residents.

BANANA ASSOCIATION TO MEET ON MARCH 6TH.

YOUNG FINNIGAN DEALS CASTRILLO A K. O. IN 4TH. ROUND

According to the press reports on the Castrillo Finnigan pugilistic encounter last Sunday, the 18th. instant, at the Panama National Stadium, a scene typical of a World Heavy weight Championship bout, was presented. It is stated that it was not thought that two budding pugilists in the water weight division—the Panamanian at 137 pounds and the Costarrican at 134, could have drawn such a multitude to the boxing arena.

We are informed that the Panamanian idol first entered the ring under thundering applause, and that on Emilio Castrillo, the guest fighter's entrance the cheering multitudes showered the nation's cordiality in a deafening manner. When all was ready and the gong sounded, our challenger first said to have opened the attack and to have gained the margin at the close of the round. Young Finnigan is mentioned as bringing into view his masterly fighting cleverness and ripened experience in the second Round and blocked at will the terrible left of Castrillo. The referee states that Finnigan began to effect his

MISS ZAMORINE LUCAS ENTERS SCHOOL OF NURSING

Our very good citizen, Mr. Washington Lucas, being for more than two decades associated with the Medical Department of the local hospital of the Costa Rica Banana Company, may have propelled the feeling which in-

duced his much regarded daughter, Miss Zamorine, to decide to devote her future life to the care of the sick. In this connection, accompanied by her mother, the young lady left, on Wednesday of last week, for the Capital where she gained admission, as a student, in the School of Nursing conducted in conjunction with the San Juan de Dios Hospital.

Having graduated last year as a Bachelor of Arts from the Normal School of Heredia, Miss Lucas experienced, no gather, no difficulty whatever in her enrollment in the Medical Institution. THE ATLANTIC VOICE heartily congratulates our young Limonense and wishes her a full measure of success in her chosen profession.

THE FIRST PRESIDENTIAL TORCH BEARER OF THE UNITED STATES OF AMERICA

One cannot speak consistently of the United States of America without thinking of the man who held the first Presidential Torch in the original Thirteen States, and whose stern that a final courage, undaunted spirit and firm courage exemplified life paved the way for those who have followed. The tracks in political, scientific, industrial and other developments are a direct result of their country's expansion, wealth and power.

George Washington, the first and greatest English speaking nation, the United Kingdom and the United States. History tells us that the Washingtons had been aristocrats and adherents of the House of the Stuarts. When King Charles I was unseated by Cromwell and beheaded by order of Parliament, Colonel John Washington, the great grand father of President George Washington, migrated to the United States with his family. Through them came the nation's great gift with the birth of "George" on Friday the 22nd day of February 1732, near Bridges Creek, Westmoreland County, Virginia. The early career of George Washington came to a close one hundred and forty years ago, but the outstanding things for which he was the torch bearer ride on in history.

ANIMAL PESTS INVADE CULTIVATIONS AT CAHUITA

WORLD SECURITY ORGANIZATION URGED ON RACE EQUALITY PLATFORM

At a luncheon given somewhat recently at the Savoy Hotel, New York, and attended by British, American and Peruvian Delegates to the World Jewish Congress, Señor Pedro Belmont, Peruvian Ambassador to the United States and member of the Board of Governors of the Pan American

Union, urged that membership to the Union be limited to nations who guarantee their inhabitants absolute legal equality and freedom from any kind of discrimination. The Ambassador also suggested that no racial discrimination be made a

part of the constitution of the proposed World Security Organization. He urged, too, that the organization should guarantee the integrity of all countries — however small and weak — and that they be also assured the cooperation of all sovereign nations who hold as their common faith, the respect of human rights. He further requested that regulations to this effect be written into the constitution of the Pan American Union.

It has been mentioned that this anti-discrimination proposal was endorsed by Sydney Silverman, member of the House of Commons and Chairman of the British section of the World Jewish Congress.

MR. AND MRS. JOSE RAMIREZ VISIT US

It affords us a maximum of pleasure to welcome don Jose and his much esteemed wife doña Maria Unfrid de Ramirez de Punarenas to our city. Their visit has been occasioned by the illness of the proprietress of the Pension America, Mrs. Unfrid, the mother of doña Maria.

call of the most all-important. Is one of the official operators of the All America Cables, and was for many years stationed in our city. He was transferred to the Pension America office during the latter part of last year. We hope the visit of don Jose and doña Maria will help the early restoration of the good health of Mrs. Unfrid.

NEW TREATY CONCLUDED BETWEEN ENGLAND AND ABYSSINIA

According to a London Press release, we glean a new treaty has been concluded between England and Abyssinia. The signatories were Prime Minister Makonnen Endalkachan on behalf of Abyssinia and Lord Delawar, Chairman of the Diplomatic Mission, who represented the British Government.

we gather, for the appointment of Afro-American technicians, doctors, teachers and other specialists by the Emperor without his first having to obtain Britain's permission. It was the case under the terms of the former pact, when only British-ers were eligible for such positions.

It is said to have declined Britain's financial help of three million pounds sterling. He feared, it is believed, that the acceptance of the British capital would lead, eventually, to a demand for too much political control with probable prejudice to Abyssinia's national needs.

The new treaty gives, it is said, Emperor Selassie, the right to appoint, citizens of America, Russia and other United Nations, as advisors. It also prepares the way,

It is also further reported that young Ethiopians will now be permitted to attend Negro schools and universities in the United States of America. In order not to compromise his position, the Emperor

Another important clause in the Treaty declares, we are informed, Britain's consent to return to Abyssinia the Direadowa and Jibuti — Adis Ababa Railway under certain specified conditions which includes the maintenance of British administration over that part of Abyssinia which adjoins British Somaliland in order to provide the natives in the latter place with suitable grazing lands, within Abyssinia during certain seasons of the year.

destruction is assured our products," said a very prominent agriculturist of Cahuita, on his visit to this city a few days ago.

It is sincerely hoped that the Maceoanery of the farmers will be broken down, who have managed to introduce effective measures of extermination of the pests.

It is claimed that since the October-December heavy rains ceased, these animal pests are operating cruelly against the poor struggling cultivators. In point of fact, according to what we have gathered, the invasion is an aftermath of the pestilence. This is rather regrettable, especially at a time when farmers were hopeful of a resuscitation of their banana, cocoa, fruit and other agricultural activities.

BULLETINS FROM BRITAIN

THE STATE MEANS YOU

It is easy enough to be generous when we are spending someone else's money. It is equally easy to plan new schemes if someone else has to pay for them. It is very difficult when we have to spend our own money and bear our own burdens, and our sense of proportion quickly returns.

When we are considering lines of Government action, or new fields of national expenditure, we often forget that the action and the money will be our own. We forget that "the Government" or "the country" is our agent, representing our will and accepting responsibility on our behalf. If it is not Mr. Churchill, or the Cabinet, or the Civil Service. The State is every one of us, every single individual. When it decides on an action it is we who are deciding. When it pays out money it is our money.

That is a thought we might well bear in mind in these days. Talk of reconstruction is in the air, and plans are being made for the post-war world. Nothing is too good for the men and women who have struggled and sweated to make a new world possible. Let us support every plan which will help to bring freedom from fear and want. Let us plan a noble and dignified life for our children. Let us put considerations of human welfare before the interest of our personal pocket books. But let us do so with our personal pocket books. But eyes open.

That is the point. Let us be clear about the responsibilities we are urging the Government to accept on our behalf. We must count the cost in toil and gold. Nothing could be more disastrous than that we should embark on great schemes, only to decide in 3, or 5, or 10 years' time that we were unwilling to make the extra effort, or that we begrudged the personal contributions they demanded from all of us.

It is we as citizens who will have to make the schemes and pay for them.

In our household budgets

OUR DEBT TO SCIENCE

"We were saved from starvation by the application of science to the problem of securing the right foods". This revelation, made recently by Lord Woolton, Minister of Reconstruction, comes as yet another reminder of the enormous debt we owe our scientists.

We readily acknowledge that debt when we think in terms of the machines of war which have enabled us to withstand and overcome the attacks of our enemies. . . . We realise that science has played an equally great part in our own everyday lives, helping to increase our own health and comfort?

In the past, many of us have closed the doors of our homes to scientific advance, rejecting or at best, discouraging the improvements it offered. Yet science still waits to serve us in our daily lives. When it knocks at our doors let us open them wide, accepting with gratitude and encouragement the service it offers us.

We do not lightly incur new expenditure. We decide whether we can afford it, and whether the advantages which will accrue will outweigh the reduction in our resources. In our business we do not authorise payment of money unless we know why we are paying it. But how many of us bother to find out how our income tax is used, or how much a country we spend every year on education and health services?

The Government, and our Members of Parliament, and our local authorities cannot do all our thinking for us. If democracy is to be a living thing we must face up to our responsibilities, we must do our thinking and we must have the knowledge essential to clear thinking. The proceedings of Parliament, the national balance sheet, the budget of our local authorities, are not alchemical mysteries, hidden from the eyes of ordinary men and women. They are there for us to inspect, and to question if we will.

When we have done that we shall realise that we are the State; we are the public.

A PROBLEM TO FACE

One of the most shocking aspects of the campaign of terrible atrocities inaugurated by the German in occupied Europe is the effect it has had, and will continue to have, on the minds of the ordinary citizens who have suffered directly and indirectly. Every correspondent in the liberated countries has already reported the intense hatred which the Germans have aroused against themselves.

It is undoubtedly going to be difficult for British people to understand fully what this means, just as it is difficult for us — who have escaped such things — to realise how human beings can torture helpless men, women, and little children, coldly, deliberately, and scientifically, by methods which are often impossible to describe in cold print.

To admit such things are happening — that men can so outrage every canon of ordinary decency — is hurtful even to the not particularly sensitive mind. It is easier, and perhaps natural, to try to ignore them. Yet if we do so we shall never solve what has become known as "the German Problem". Moreover, by this ostrich-like behaviour we shall erect a barrier between ourselves and those people of liberated Europe who cannot erase from their minds the terrible memories of atrocities of which they themselves have been spectators, or

THEY DEPEND ON YOU FOR LIFE

Since D. Day blood has been flown to the wounded in North-West Europe and transfusion has saved the lives of thousands of men.

Under the Ministry of Health's Emergency Blood Transfusion Service more than 330,000 men and women gave blood donations during the first half of 1944.

After D. Day, all Blood Transfusion Services throughout the country worked at top pressure, often day and night, to ensure that there was no hold up of the so precious supplies of "life liquid", both for the battle zones and hospitals at home.

The need for this service grows. Its importance can be realised from the fact that the blood of ten or more donors may be required to treat one casualty.

Transfusion must be undertaken quickly, or it may be too late. For this reason blood supplies are "banked" so that they can be drawn upon for immediate use.

of which their relatives and friends have been victims. They need our sympathetic understanding.

"How can you punish a nation of 80 million people?" asks the man in the street, "for atrocities committed by comparatively few of their number, even admitting that the majority were passive spectators of atrocities before the war?" The answer to that rests per

FRESH VEGETABLES FOR SEAC

The RASC in Ceylon a turning gardeners. Under the direction of a senior officer with Norfolk farm experience, they have sited a large vegetable farm complete with nursery garden planted with seed flown from as far afield as Britain and America.

From 100 acres of what was once jungle waste, they are producing great quantities of fresh vegetables daily. This is a contribution of first rate importance in helping to feed SEAC servicemen in the island or afloat.

The Sinhalese people themselves have risen to the wartime food emergency by an island-wide "Grow More Food" campaign. Every available acre of land, from school plots to Buddhist temple gardens, is producing foodstuffs. The famous rubber trees of Ceylon, not the Allies' largest source of natural rubber, are interplanted with foods crops.

haps in the truth voiced by famous French philosopher "There are no punishments only consequences".

History tells us that no crime, no injustice even, has ever been committed in the name of a nation without punishment being demanded in the long run.

No man living can foresee the terrible consequences to the German nation attendant on the mass murders and coldblooded tortures which the Nazi regime has elevated to a form of religion. The blood guilt with which that unhappy nation has stained its soul must, in the nature of things, be atoned for.

We shall do most to help humanity now by clearing our minds of emotion and trying to understand what a people who has contributed so greatly to humanity in the past should sink to depths for which no mere breakdown of its political economy, terrible as this was at the time. This was the real question behind the accusation of a broken woman who has seen her young sons senselessly slaughtered by SS butchers, when she said, talking to a British correspondent, "You must believe every atrocity you hear about—I Know!"

En las Líneas Alemanas

Tropas norteamericanas atrincheradas en la línea de Sigfredo, cerca de Brachelen, prosiguiendo su ataque desde las posiciones recientemente capturadas en la nueva ofensiva contra el Reich.
