## Will Costa Rica send a delegate to the 1931 Convention in August next?

This is the question that is engaging our attention very seriously, consequently I am bound to crave a little of your space in our valuable Journal to make a few remarks on this all absorbing topic to my fellowmen of the Negro race.

Just a little more than a year, we saw a somewhat flourishing Organization among the Negroes of Costa Rica. The standing of the Organization was such that its members (more than 1000 then) anticipated the sending of 3 delegates to the 1929 Convention of the Negro peoples of the World, and that could easily have been done if the same Unity had continued, but unfortunately for the Organization, it was at that same time that an awful split begun, (which is much greater today.)

The split started when the Limón Division announced her withdrawal from the Conference of Presidents, and grew worse when Estrada and Madre de Dios followed suit, hence only two delegates could have gone to Convention; and except something tangible is done to reunite the scattered units; whose minds have been disgusted (rightfully) and as a result left the Organization, we will not be able to do much, and our labours of the past will be lost.

Anyhow, the keen observer sees with the prospect of a reunion; a clean, progressive U. N. I. A. in the not very far distant in this country. One can decide thus after considering the prominence of the persons that are now interested in the future welfare of their countrymen.

One speaker at Pacuarito during the unveiling of her new Charter, said, there are two great men that are rendering yeoman service to our people in this country, namely Messrs A. L. Stewart and S. C. Nation I have seen these two, and a few more prominently among the others is Mr. W. A. Petgrave, a gentleman of some legal knowledge who is also playing a great part (in the press) to awaken the consciousness of our people.

It is however full time that some more of our educated men come out and offer themselves for leadership, because it really needs the best brains to lead our people in the paths that result in progressive ideas.

How long Oh God! how long will ignorance continue to rule our people, and how long will our big brains continue to be spectators of this shameful condition.

Lets have more Stewarts, Nations and Petgraves; there are plenty of them here. Preachers and teachers are specially invited to link up and help our people to think.

Thanking you Mr. Editor for space yours sincerely Sydney Montague Madre de Dios.

## Calabar College to front again

By the Gleaner we find that Calabar has rushed to the front again this year, by winning the Jamaica Scholarship by its pupil Mr. Alfred Lind De Pass Carnegie at the age of 17 1/2 years. The son of the Revd J. Carnegie, Moravian Minister at Magotty. His brother also is a prize man, having got second class honours at London University in classics and is now engaged as one of the Teachers at

Calabar, and had the privilege of being one of the young Alfred's tutors. This young gentleman has had the distinction of passing his Junior Cambridge exam at the age of 12 1/2 years and his Senior Cambridge at 14 1/2 year of age, and now the Jamaica Scholarship at the age of 17 1/2; by which he is will receive £250 per annum for three years to enable him to take up his profession in England.

## Banana Consumption

According to the Food-stuffs section of the Department of Commerce of the U. S. A. there were imported into the United States for the year 1929 no less than 65,134,106 Stems of these bananas, Honduras and Jamaica were the greatest suppliers; and the imports into Great Britain has been 12,450,802; of this the greatest supplier has been Columbia being 31 per cent, with Jamaica next 21 per cent. Costa Rica next of 17 per cent. It gives the production of Jamaica for last year as 22,107,786 stems.

From Trinidad we find

that by the experiments being made by the Imperial College of Tropical Agriculture it is seen that the Governor bananas are immune from Panama disease, and can be made to travel as good as the Gros Michel variety and if this can be made to travel well, then Trinidad and Tobago will be a Competing factor in the Banana Supply of Britain.

## Los triunfos soviéticos

Rusia no solamente triunfa ideológicamente, sino que impone su comercio en el mundo entero

Lo que los Zares no pudieron hacer, lo hacen los Bolcheviques

Hay alarma en Estados Unidos, no por las bombas de dinamita, sino por un hecho más contundente y efectivo: el triunfo arrollador de la producción y del comercio de Rusia. Ante este hecho, nada puede la calumnia que el capitalismo se habia encargado de propalar por el mundo.

Dice la prensa americana que Rusia en el curso de este año, ha vendido en los mercados de Chicago cinco millones de fanegas de trigo. Esto en cuanto a agricultura se refiere, pues industrialmente Rusia se prepara para invadir al mundo.

Las contrarrevoluciones son sofocadas en aquel gran país en el mismo día que se inician. Es tal el servicio de espionaje, que los conspiradores no tienen tiempo ni de pensar en movimientos sediciosos, cuando ya son descubiertos y arrestados. Unos van al cadalso, otros al destierro.

Aquella gran revolución ya tiene cimentado su gobierno, ya pasó el cabo de las tormentas, ya no hay quien la derroque. Ahora nos cabe preguntar: con-

tinuará Rusia siendo socialista en la opulencia? Olvidará acaso, su promesa de cooperar con todas sus fuerzas para redimir a la Humanidad de la iniquidad capitalista?

Pensadores amargos dicen que la Rusia soviética, ya en en la opulencia, dejará de ser socialista. Que las naciones son como los individuos: mejorada su situación, olvidan todo. Que se es socialista, mientras se es pobre. Que nada es tan conservador como el capital, y que por eso dijo Cristo: es más fácil que pase un camello por el ojo de una aguja, que un rico salvable.

La psicología del socialismo es muy curiosa. Ningún rico o acomodado es socialista. El socialismo lo predicaban los necesitados, los que están sedientos de justicia, pero una gran parte de ellos confunde el bien personal, con el ideológico universal, predicando para sí mismos, y cuando han satisfecho sus anhelos de bienestar abandonan al hermano en desgracia, olvidan la idea... Los apóstoles que dan todo lo que

tienen por una idea, son raros, cuán escasos! Por esto, no hay que confundir a Cristo con el Diablor. A los fariseos es preciso apertirles, lo que le dijo Jesús al personaje que se le presentó para decirle: Señor, he cumplido con todos los mandamientos, quiero seguirte. Y entonces Aquel que sabía leer en las conciencias le respondió: Ve, vende todo lo que tienes, dalo a los pobres y ven y sigüeme. Y es sabido que el fariseo no volvió.

Otros dicen que Rusia ya sembró la semilla, que ha germinado y fructifica.

En efecto, Alemania está en víspera de adoptar las ideas soviéticas, y después de ésta, que es la más sabia, prudente e industrial de las naciones, que podrá hacer el resto?

Bien dijo Enrique Ibsen: Las ideas son como los espectros, que una vez evocados, no se pueden alejar. Los que evocan espíritus, son perseguidos por ellos para siempre.

Veamos ahora lo que dice la prensa americana:

## On the sick list

We are very sad to chronicle the very serious illness of our old friend Dr. Miguel Angel Velasquez. On Tuesday there was a strong rumour around town that he had passed away to the great majority but we were gratified to find on closer investigation that instead he had recruited, we hope this will be a good sign in favour of his recovery.

Dr. Velasquez has been a most sincere philanthropist of Limón and its inhabitants he is the most reasonable and charitable Médico around us, it is therefore hoped he will be spared to us for many and many a day yet.

## The Commission on Council Enquiry

The investigation ordered by the acting Governor into the conduct of certain Councilors of the Kingston and St. Andrews Corporation Council, has been continuing its course, and startling revelations of alleged graft among certain members of the Community of Kingston and its municipal officers, as a means of obtaining whatever business propositions, or positions they may apply to the Municipality for.

Away from the former charges of alleged graft already investigated against Mr. Fernandez, Mr. Duval the Revd Gordon Hay for accepting bribe from an employee of the Municipality to obtain for him promotion in the service etc and influencing the Council in commercial propositions which findings have been reported.

Now comes further evidence from Mr. James Gore of "Cuyamel fame", saying that he too, had paid out £40 pounds to Messrs Fernandez, the Revs Gordon Hay, and Mr. McLaughlin as well as other gentlemen and for having also accommodated Councillor Clough with a Loan of £25 with similar intentions; towards getting sanction for the erection of his tile factory and other proposals.

The Revs. Gordon Hay and McLaughlin have refuted emphatically the statements of Mr. Gore Mr. Gordon Hay has since left the Island.

In the meantime the Commission has concluded its investigations and has

sent in its findings to the officer administering the government, as per "The Gleaner" and it is understood that criminal proceedings will be instituted against certain individuals complicated in the charges; what is feared is that those persons found offering the bribes will also be implicated if criminal proceedings are set in motion because if there was no offer to bribe, there would be no graft.

Some people seem to have no faith in Mr. Gore's allegations, as they are hardly consistent; anyway his declarations have had the effect of lowering his prestige in the community, especially when considered in conjunction with his mixings here with the Cuyamel Fruit Co. and its Attorney Mr. Melano.

It is thought that these wholesale allegations of graft in the Corporation Council will bring about the dissolution of representative control in the manipulations of the city's affairs, and these placed in the hands of a Commission, as per a petition which has been forwarded to the government, which will be a blot on the integrity of representative government placed in our hands. This was the same idea, on account of which Mr. Marcus Garvey was framed up and criminally prosecuted for libel, in consequence of his memorable article in the "Blackman" newspaper, "The Vagabonds again" and to see how happenings have justified his remarks.

## Great dissatisfaction by Jamaica Banana Producers Association

The Jamaica Direct line ships of the Association have recently been calling at Baracoa, Cuba to take in half her Cargo, before coming on to Jamaica to take on Producers Association fruit, which is causing great apprehension among the members of the Association, as they claim that there is not enough

space on the boats to convey their fruit to European markets, after these boats shall have called at Cuba to take on the fruit of the Di Giorgi Corporation.

On investigation it turns out that the Di Giorgi Corporation owns one half the value of these boats, and has the privilege of

loading one half the space on these boats with their own fruit wherever grown or bought, paying one half of the ships expenses, which arrangement was not known to many of the Jamaica Producers. Formerly the Di Giorgi Corp. used to buy their half of fruit from the Association at current prices based upon the market prices abroad; hence all went well so long as the producers

were shipping all they grew, but now that the Di Giorgi Corporation claims that their fruit grown in Cuba or bought in that Island gives them better financial returns than the Jamaica bought fruit, they naturally divert these boats from the Jamaica direct service, to call on the outward service to take on their half of fruit at Cuba, hence the squeal. The members of the Jamaica Banana Producers Association are claiming that the extra expense for taking the boats out of the run, to go to Cuba should be borne entirely by Di Giorgi and not half by them, then again they are claiming that they are losing a considerable amount of fruit, there not being sufficient space on the boats, to take their fruit, after Di Giorgi has taken on 50000 stems of Cuban fruit.

The new boat being got ready will considerably relieve the situation as Di Giorgi will not have 1/2 claim in her.

## Overnight discovery

In the 7th issue of "The Excelsior of Cartago" we find a note, in defence of the Telephone system of Cartago in response to an article in our last issue with respect to this public utility, but while seeking to defend the gentleman in charge of the office, he alleges that the service is not only bad but dishonest, by carrying more clients than his lines of Communication are capable of attending to.

Our intention is never to blame any individual employee, but rather to point out defects when they appear and invite a remedy, hence we are glad that our colleague corroborates with us that the service is faulty with a hope of betterment.

There is one remark however that we cannot allow to go unnoticed. This mushroom in Journalism terms "the Searchlight" a Jamaican Newspaper, this shows his lack of Education, in not being able to differentiate between a Jamaican and a Costa Rican Newspaper, edited and printed in Cartago Costa Rica.

If the appellation is intended to carry a "stigma" we can only refer this overnight discovery to "The Daily Gleaner," a Jamaican Journal of world wide reputation, on the correspondent staff of which the pendent staff of which the writer (who is a boastful Jamaican), has always been sought after, and I am afraid that comparisons as to culture blood education, integrity and Social Standing in our spheres might be odious.

I would therefore advise this writer, that it is not the spot under the Sun in which one is born that Counts, but it is the culture and refinement, imbibed around that spot coupled with personality and rectitude of ones character which counts.

## The Embargo Explained

Dear Mr. Editor,

Please allow me space in your valuable column to explain my reason for taking legal actions against the Limón Division of the U. N. I. A.

My mother died a financial member of the Port Limón Division in the year 1925. Leaving me as legatee to her death—grant, along with an executor whose duty it was to see to it that I was paid the sum of ₡ 300.00, according to the laws of the Organization. Some months expired, and I went to ask about this money and was told that my executor drew the amount of ₡ 150.00 without my knowledge. I immediately wrote the officers of the Executive Board, advising them not to pay the balance of this money without my consent or they would be held responsible for same. It was to be left until I was of age to receive it. I wrote the Executive Board on the 31st of December 1927 during Mr. Nation's regime, asking that a part of this money be paid to me; and on the 8th, of January 1928 I received ₡ 50.00 without any trouble whatever. I did not ask anything about the balance until sometime in 1929, when I heard that the executor had gone to the officers of the Division, claiming the balance of this money. Upon hearing this, I sought advise from a student of the law; and he told me to go and tell the President of the Division who was Mr. T. A. Smith at the time not to pay this money to any one beside myself or else he would be held responsible for it. This I did immediately; and was assured by him that he would not do such a thing for it would be illegal. A few months ago after the President Mr. T. A. Smith found that I was one who was against his mal administration of the division and with an intention to spite me in some way or other, advised my executor to demand the money although knowing that I had denounced this man already, knowing that I was of age, to demand the money, and seeing the plan that was laid out to deprive me of it, I wrote to the officers of the Executive Board of the division on the 15th, of May requesting that the amount be paid to me within thirty days. This letter was taken to the members by the President. He told them that I was not of age to receive this money and he could not pay it to me because someone else was claiming it. The members advised him to call the two parties together and see who the money was belonging to. This was done in a membership meeting on the 24th of October. According to his action, in the matter, it appeared as if a part of this money was promised to him. After a lengthy discussion, the members decided that the money should be paid to me being the legal legatee. The President not being pleased of this decision,

the next day advised my executor to embargo me for the ₡ 50.00 which I had drawn during Mr. Nation's regime so that I could lose my work. He also assured this man that he will see to it that I don't get this money as long as he is President of the division. Up to the last of July, not a word was said to me concerning the money. On the 7th, of August I wrote the following letter.

To the President and Officers of the Executive Board.

Esteemed Sirs:

I am instructed by my attorney to write you for the last time, requesting that a settlement be made in full of the amount due me within fifteen days from today. Failing to grant this request, legal steps will be taken to obtain same. I have given you thirty days already and nothing was said to me from the time the members decided this matter. Therefore I don't expect to wait longer than fifteen days more. Be it further known that no part payment will be accepted.

This letter I was told was laughed at by the President. On the 12th, of August the letter was brought before the membership, and after half an hour planning of ways and means to pay the money, the members ask me to wait until thirty days more when they would make a voluntary subscription and pay me. The President being absent at this meeting upon hearing of the members action, protested strongly that such a thing cannot be done.

He would not stand as a President of this division, and allow the members to do as they like. He will see to it that I wait until when the division is able to pay me. The thirty days expired and I went for my money, and was told that there was no money to pay me. Not having any intention to harm the association; but since Mr. Smith is trying to use his «Poder Generalísimo» to deprive me of what is mine, I had to resort to an Embargo. Which will now cost the Division over ₡ 200.00 instead of ₡ 100.00. If the members won't get rid of such a man, in a short while he will cause them to loose their Liberty Hall along with the property. Thanking you for space Mr. Editor.

## "A Great Benefactor Expires"

Can storied urn or animated bust, Back to its mansion call the fleeting breath?

Can Honour's voice pro-voke the silent Dusi? Or flattery soothe the dull ear of Death?

What scene could have brought to our minds more vividly the significance of these words, than that which was witnessed last Sunday at about Four P. M. As we watched the cortege of an unprecedented number following the corps of Don Juan Jose Leon to be laid to its last resting place, we certainly realize that Honour's voice cannot soothe the dull cold ear of death. In this case the deceased had not even the chance of resorting to restorative measure's which we know that

the best that money can buy would have been applied «No» Fate decreed otherwise.

That the community has sustained a great loss by the death of this Kind, Noble, and Generous Gentleman was clearly evidenced by the cosmopolitan nature of the crowd of Sympathizers who turned out to pay their last tribute. There can be no doubt that, this gentleman during his life had become endeared to the hearts of the people of every station of life throughout the entire community. His many deeds of Kindness to nearly every Social and Educational Institute of this town, will long be remembered. He may be regarded as a silent Benefactor, as only those who have been directly concerned knows anything of his many generous acts, we feel sure that such a demonstration of sympathy and condolence cannot fail in helping to comfort those who mourn. Nobility is really the substance of Goodness. And «Born But to die» is the last fulfillment of Man's mission here on Earth. In these realizations we hope that his sorrowing wife and family might find Solace.

S. D. Britton.

## Among the Lady Mechanics

On Sunday 21 St a very pleasant afternoon was spent at the Hall of the Local Phylis chapter of the Mechanic Sisters. This was the occasion of the Rally of the Fruits scheduled to be exhibited on this date. A beautiful selection of choice fruits was amassed; and a special feature was a fruit tree nicely decorated with the different classes of fruits and fruit products by Miss Hylton and her friends.

Among the many representatives of other fraternal bodies, who gave expressions of exhortations, Sister Patterson of the Mt. Purity, Mr. Bertie Barrett, and best of all Mr. Sherrier of the Shepherds the Nev Hope Lodge were the most impressive. The hall was full and the Choirmaster along with his Chorists and organist Miss Gladys Forbes, did justice to the long programme. The children in their recitations and song pieces could not be bettered anywhere. Special praise must be given to Sister Hylton the Secretary and a few co-workers around her for preparation of the children with such perfection, as to bring off such a beautiful function.

There were two prizes offered for the most cordial response from Sister Societies by way of dona-

tions of goodwill the first of which was given by the Shepherd's Lodge of Matina and the second by the Mt. Calvary Lodge.

The function was ably opened by Bro Archie Brown of the Phoenix Lodge, who turned over the chair to Mr. S. C. Nation on his arrival after compliments were exchanged on both sides. The chairman after running through the very long programme with credit to himself and the Phylis Chapter, laid stress on the apparent intentional absence of the Mechanic Bros which to him seemed a want of good judgment, because the Sisters were already an accomplished unit among them, and where was the sense of slighting them at this stage. He also thanked the Phoenix Lodge in a most touching manner for the hand of fellowship the members had extended to the Phylis Chapter. Bro Pearson of the Progressive also spoke on the same question, of support to the Chapter.

After which a very enjoyable day befittingly was brought to a close; the Representatives and choir were treated to cream and cakes, when all again joined the outer world feeling gratified for the few short hours spent so agreeably.

## La sucesion de don J. José León

Según el Stock de los negocios del comerciante don Juan José León fallecido recientemente el 20 de este mes, su capital no baja de dos millones de colones, esto da la mala situación de los negocios en esta zona. Los negocios del finado continuarán bajo la vigilancia del Lic. Adán Acosta apoderado general del finado y del experto don Andrés Durand Allan antiguo empleado de la casa. La idea del señor Acosta es que los hijos del extinto terminen sus avanzados estudios, y pueda así el mayor tomar la dirección de los negocios de su padre.

## El aniversario de la Independencia en Siquirres

Como nacida en un espíritu de verdadero patriotismo y elevado ánimo, así nació en el corazón de nuestro cultivador de almas inocentes, la idea de celebrar con pompa nuestro

100 aniversario de la Independencia.

El 14 por la noche, el Director de la Escuela con sus pupilos anunció con un desfile, la víspera de un nuevo día

de vida independiente, recorriendo las principales calles del poblado al acompasado canto de una marcha, ¡OH COSTA RICA!, rindiendo honor con nuestro pabellón a la primera autoridad local, que en nombre del pueblo y el suyo propio, dió las gracias por ese homenaje exhortando a los niños para que perdure en sus corazones, el amor a nuestra patria.

En los mismos términos también habló el Sr. Vice-presidente y Srío de la misma Junta. Vaya para la Junta nuestra sincera felicitación, igualmente para los maestros de nuestra escuela don Miguel Ángel Conejo y doña Vivian Ugalde Alvarez de Conejo.

Para cerrar los festejos de nuestro aniversario, por la noche tuvo lugar en los salones del señor D. Rizo, un baile social al que asistió lo más selecto de nuestra sociedad, entre las que recordamos estuvieron las familias del Dr. Shaw, Edward, Sheden, Bins, Peña, Srta Mills, matrimonio Conejo, Olguita Jiménez, y otras cuantas que muy pesar nuestro no recordamos. Entre los varones, recordamos a don Manuel Cuadra, Manuel Bouza, Carlos Shaw padre e hijo, Víctor Hayling, Alfredo Chaverri, Vicente de la Peña, Ramón Montaña, Hart, Bins, Norton, Jesús Jiménez, José M. Mora y el corresponsal de la Tribuna aquí Sr. Miranda, quienes al compás de variadas piezas, se bailaron hasta las tres de la madrugada, terminando la fiesta en el mayor orden y armonía.

## La gran innovación

Fíjense mucho al fin de este aviso:

En Cartago 125 varas al oeste del mercado por la calle del Comercio, frente a la botica Guzmán, se encuentra la relojería de Fausto Cerdas G. donde le arreglarán su reloj y se lo decorarán a su completa satisfacción,

de cualesquier tamaño, calidad y fabricación que sea, pues en ella se trabaja con repuestos nuevos de diferentes fábricas de relojerías Suizas y Americanas.

## En el nombre de la mujer

La mujer es más poderosa que el hombre. Cuando ella es frívola y perversa, lo sume en el abismo del ridículo y de la abyección; cuando por el contrario, es juiciosa y virtuosa, lo eleva hasta la alta cumbre del respeto popular y la grandeza verdadera.

de toda buena madre compartiendo los dolores y los infortunios de su hijo, tanto más querido cuanto más desgraciado.

La mano, la cabeza y el corazón tienen un mensaje para la mujer. La primera dice: trabaja; la segunda: piensa; y el tercero: Labóritasid, sabiduría y simpatía. he ahí las tres virtudes cardinales de la mujer ideal.

Venturoso, mil veces venturoso será el día en que la mujer, comprendiendo la dignidad de su origen y la trascendencia de su misión, se consagre a ser la compañera y no el juguete del hombre, la sabia y paciente colaboradora en la árdua obra del progreso humano, y la maestra primera y última de los niños.

La misión de la mujer es ser buena consejera como hermana, compañera fiel como esposa y mártir sublime como madre.

El hombre al degradar a la mujer, no ha hecho más que degradarse a si mismo obrando tan torpe y criminalmente como un pájaro que rompiera voluntariamente una de sus alas o un pez que devorase sus aletas. Sin la mujer verdaderamente dignificada él no podrá cruzar el proceloso océano de la vida terrenal, ni mucho menos emprender su vuelo triunfal hacia la infinita región celeste.

La estrella alumina y la flor perfuma. La mujer es la síntesis de ambas; es estrella, porque su amor resplandece allá en el fondo de nuestro corazón; y es flor, que aromatiza el ambiente, porque su inagotable simpatía social nos rodea en el hogar, en la patria y en la humanidad.

## Pictures of our church life

By the Gleaner we see that Elder J. B. Mosley of the Free Seventhday Adventist of this place is carrying on a series of stereopticon lectures in Jamaica. If he did take the variety of views of the different Church life and practises in this country, his lectures could certainly be made very instructive, interesting and possibly amusing; with some of our spiritual Pastors, refusing to see anyone on the Streets but

their intimate friends, others refusing to be seen in their Presbitery but by certain members alone, other spicing off in the church the Sheep from the goats already, while there are yet others who indulge in the customary gyrations, so as to see and be seen, and infrequently there appears the bailiff's seal across the door. Hence the Elders pictures ought to be very interesting to his audience.

## Are our Judges human?

We were severely spurned at by some of our engaged, narrowminded friends some time ago when we criticized the decision of the Chief Justice in the Garvey case. It was said that it was impossible that our Chief Law Magistrate could have so erred or allowed himself to be so carried away by prejudice.

What will they say now by the recent decisions of the three judges sitting in Supreme Court as against that of our Chief Justice; and in support of which we publish the following clipping from «the Golden Age.»

### Judges Are Human Beings

The late Justice Brewer, of the Supreme Court, once said: «It is a mistake to suppose that the Supreme Court is either honored or helped by being spoken of as beyond criticism. The life and character of its justice should be the object of constant watchfulness, and its judgments subject to the freest criticism. The

time is past in the history of the world when any living man or body of men can be set on a pedestal and decorated with a halo.»

## LIBERTY

## Sunday at the Spanish School

Welter skelter trend our feet With willing haste to join the fete

Sunday th 14 the September was gala day at the Government School of Limon. Prominent citizens including the Patronato Escolar, parents and guardians attended in great numbers and signed the Visitors' Book. The School edifice was tastefully decorated with flags and plants; and a note of joy tuned the hearts of all as at 8 o'clock a. m. the Banda Militar took up its stand in the spacious corridor and opened the fete with the Himno Nacional de Costa Rica. The school children of the higher grades sang the strains in splendid chorus on this eve of the 109 th Anniversary of the Independence of our noble Republic.

The staff of teachers was there in full, headed by the Inspector of Schools don Eliseo Brenes. Discourses were pronounced by the able and amiable Directora Niña Fé Castro, the talented and beloved Director don Victor Solano, the schoolmasters and the Inspector of Schools. Their principal theses were practical, constructive and progressive liberty; punctuality, hygiene, harmony and industry.

Patriotic airs were sung accompanied by the delicately sweet touches of Niña Fé at the piano. This lady seems at once teacher, mother, musician and guardian angel of the youths as she pours out her very soul to animate and educate the children. She is a born pedagogue and merits our whole-hearted support.

The chief attraction of the day was the presentation of about 37 distin-

guished girls of the school. Nothing was more beautiful than to see Niña Fé tie on a ribbon sash of the sacred colours of Costa Rica over the shoulders of the niñas and place in each gentle hand a card declaring the merits; children and parents alike were filled with joy for this distinction.

Tres vivas para Niña Fé, tres vivas for each grade teacher. She fills the heart of youth with joy and paints beauty on their brows, rivals the angels in glory and fires humanity with a flood of smiles as we watch that streak of gladness flush the rosy cheeks of the recipients, and see their breast heave in responsive gratitude.

Among the distinguished children were several Spanish niñas and many of our coloured constituents including misses Winfield Aurelia Hylton, Dora Taylor Lucy Po—hon and sister, Dorothy Chickerly, little Fé Richardson and a few others.

We congratulate the parents of each child who has so distinguished herself. Limón, Sept. 17 de 1930.  
H. Hylton

# Los triunfos soviéticos

# What the King of Britain thinks of the Stupidity of some Court Rules

Viene de la primera

Más todo esto no es sino una tregua en la gran lucha de vida o muerte que se entablará pronto entre los Estados Unidos y Rusia, debido a la invasión de los productos soviéticos en el territorio americano a precios que,—a pesar de las altas tarifas—, no le será dado a Norte América poder entrar en competencia, surgiendo de allí la catástrofe, pues aunque no llegaran a territorio estadounidense los productos rusos, éstos se desparanarían por el resto del mundo, dando muerte al comercio de los Estados Unidos.

L. Cooper, de New York, gana quinientos mil dólares al año por supervigilar la construcción de una gran planta de fuerza eléctrica en el río Dniep, por un valor de ciento veinte millones de dólares, basándose el salario de Cooper en la proporción del costo de la empresa.

Está en autos el gobierno americano de que la cuarta parte del programa industrial ruso se ha realizado ya, y de que con el producto de las abundantes cosechas obtendrán los soviets empréstitos interiores para dar cima al enorme ensayo que quieren

realizar, con verdadero pismo del mundo, que jamás haya visto cosa semejante en forma estadal.

¿Cómo salvarán los Estados Unidos su potencialidad industrial y agrícola?, es cosa que no sabemos, pero que de seguro debe estar siendo objeto del más detenido estudio por parte de los grandes estadistas de que dispone esa gran nación, que día a día sorprende a la humanidad con sus rápidas concepciones y la eficacia de los medios que emplea para salir adelante de las mayores dificultades.

## Don Juan Jose...

Viene de la primera página

entre el comercio limonense, y como empresario muy pocos le superaron, ya en la agricultura y ganadería, ya en otros ramos, donde desplegó siempre gran actividad y entusiasmo.

En varias ocasiones desempeñó cargos municipales, que le valieron por su buen juicio y ecuanimidad el aplauso general.

Hombres de buen corazón que hacen el bien cuando es menester, son los que se lleva la muerte.

El sábado en la mañana lo vimos solo y muy alegre en su carro. Era que se despedía de su patio? Era que ya la muerte lo acechaba? Fatal destino. A las tres de la tarde ya era cadáver, a consecuencia de un ataque cardíaco.

La noticia de su muerte circuló por toda la ciudad rápidamente y desde ese momento, la casa del fallecido fue visitada por familias de todas las capas sociales y políticas, para testimoniar a su viuda e hijos el gran pesar.

En la mañana del domingo 21, llegó de San José el Lic. don Adán Acosta Valverde, Jefe del Control y Apoderado general del señor León.

A las cuatro y media de la tarde se fue mismo día, salió el cortejo fúnebre de la residencia de la familia sita en la calle 3a, tomando la avenida 4a, hasta la Catedral, en la cual se le hicieron oficios religiosos. De allí tomó el numeroso cortejo hacia la avenida 1a, donde el convoy con 11

carros, dondujo sus restos mortales al panteón central.

En el momento de depositar su cuerpo en la tumba fría, hicieron uso de la palabra en términos muy encomiásticos sobre la vida del gran luchador, primero el Lic. Efraim Sáenz Cordero, y luego el señor Director de Escuelas señor Solano.

El acto fue emocionante, y sobre su tumba depositaron muchas coronas, entre ellas recuerdo: las de la Colonia China, de empleados de Juan José León, del Club Nacionalista Chino y otra de don Adán Acosta y familia.

Muere don Juan José León yee relativamente joven, a una edad de cincuenta años más o menos.

Se calcula en dos mil almas de todas las esferas, la concurrencia al sepelio, manifestación esta de simpatía la más grande que se ha visto en esta ciudad, ofrendada a un ciudadano; bien merecida por cierto, dado el espíritu humanitario de este buen amigo y caballero que hoy guarda silencio en la losa fría de su tumba.

La colonia china, la asiria, la española, la italiana, y parte de la jamaicana hombres y mujeres, asistió casi compacta.

Para su afligida esposa doña Francisca, para sus inconsolables hijos, y demás miembros de la familia The Searchlight— por medio de su cronista, envía la expresión de su sincera condolencia.

Una cosa que es digna de estudio, según la prensa americana, es cómo hace Rusia para disponer de tan grandes sumas de dinero sin hacer ningún empréstito en el extranjero, ni haber un sólo dólar estadounidense en ninguna empresa soviética.

Para que se vea la extraordinaria potencialidad económica de Rusia, a quien se hace pasar como país pobre, baste saber que el Coronel Hugh

A London dispatch in the *China Press* says in part:

The king's illness, it is stated on all sides, has completely changed his outlook on life. The long months of isolation in the sickroom, first in London and afterwards at Bognor, have made King George "hungry for human companionship and anxious to met as many people as he can in the future."

"When I am better," King George remarked to

a circle of friends who visited him in his convalescence, "I am going to abolish many of the artificialities that have hitherto separated me from other human beings. I have come to realize during my illness more than ever before, that a king is a very ordinary human being, but that the things that distinguish him from others and keep him out of contact with the world of reality, are nothing but a set of extraordinary and antiquated rules and

regulations which in many instances have very little sense to them. And I mean certainly to bring a change in the situation, once I am fully myself again."

The queen is fully converted to the king's new point of view. And King George, in turn, is now able to sympathize with and understand the dislike of the Prince of Wales for ceremony and the endless drudgery of court life with its thousand and one formalities. The entire royal family, in fact, is unanimous in the opinion that 75 percent of it, is all silly and senseless and belongs to another age.

The first practical effect of this revolutionary change in royal psychology has been a personal order from King George that gives the servant staffs at Buckingham Castle, Windsor Castle and Sandringham the full benefit of an absent court, which used to mean a period of "disciplined idleness". Disciplinary regulations at all royal castles are henceforth relaxed.

The Excelsior C. C. held their weekly meeting on Thursday night at the President's dwelling, at 7, O'clock the usual hour. There were quite a few members and the business that was done great, but the president asked that it be waded until Thursday night when we shall have a bigger house. One of the things that was transacted is dealing with a challenge from the S. C. C. to be played

on the 7 th. inst it was unanimously agreed to play the game on the 14 th, inst. The President asked that all members keep regular to the meetings so as to get somewhere. The officers that are put in charge to run the X. L. C. R. C. C. are as follows. F. A. Duckett President. H. J. James Vice-President. E. A. Drummond Manager. E. C. Chambers Captain. C. Banner Vice-Captain & Secty.

H. B. McLaren Assistant Secty.

The treasurer's name will be published in the next issue and the names of the team for the 14 th. inst. It is learnt that the road to Camp One is to be constructed, so Cricketers can look for a good time, when 'Sankey Park' will be the center of the game; lets hope it to be so.
