Racial Unity

To the Editor.
Sir,—In your issue of Sept 24th you published an interesting article under the heading "Man," the latter portion of which treated on Racial Pride, a theme which is given only a passing thought by West Indians and for which reason we cannot make headway as a race. We are living in a country where we can do much to help ourselves, by mutual assistance, but so long as we will sit down and do nothing, or will not try to do anything, so long shall we be regarded not only as an inferior race, but as the most degraded and ignorant race that lives or that has ever lived in any age.
The late International Conference held at Tuskegee was a step in the right direction and some of its good fruits are already seen. The failure of the Mutual Life Assurance Society and the Artisans and Labourers Union, ought not to discourage us, but rather teach us to do business in a business-like manner. If we but unite, we can surely find a Moses or a Joshua to faithfully lead us, so long as we will treat them as decent men, and not as gods. Many things could be done in this Republic that would help us as a people. The Friendly Societies can be of much more use to both their members and the outside world, was there a sort of Fraternal Alliance among them. Even a Fraternal Reading Room would be of some use I shall return to this subject later.

I am, etc,
A DARKEY.

Raffles.

From "La Informacion" of 9th Oct., we note the Board of Charity will ask the Secretary of Home Affairs to put rigidly in force the laws relative to raffles, since there are so many people now engaged in this class of business with great prejudice to the interests of the Asylum Lottery.

In reality there are many people who infest the public with these little raffles, many of which are mere traps to delude innocent and thoughtless people, who, trusting to the good faith of these people are cheated and robbed in this manner.

For morality more than any thing else, the police ought to prohibit any class of raffles, and punish severely people who traffic in this kind of business.

Backward Spain

Madrid, Sept. 24.—As the result of an investigation ordered by King Alfonso the Minister of the Interior reports that 60 per cent of the land in Spain is uncultivated and 38 per cent is utterly without irrigation.

The report shows that 4,500 villages are without roads or railroads, 30,000 towns and villages have no schools and 12,000,000 of Spain's 17,000,000 inhabitants can neither read nor write.

Too much Puff

TRANSLATED FROM "LA INFORMACION."

The U. F. Coy. has arranged all her lawsuits pending. The Coy. behaves well now.

The United Fruit Coy. has already regulated with the interested parties a lot of Judicial cases, arising out of the campaign that she had against the Atlantic Fruit Coy. relative to her monopoly in the banana industry. Deputy Faeron has been the means of making all these settlements for the U. F. Coy. This Company paid the negroes for all the fruit which they took and threw away, giving them contracts to continue buying from them in future. The negroes have been left contented and the Coy. receives all the bananas that they are able to deliver, preferring to lose the fruit from whatever causes rather than to occasion losses to producers. Even though they have to throw away great quantities of these fruits in the sea.

We are amused over this bit of news, we hope the day is not far distant when this feeling will exist between the Coy. and the farmers, but at present, there is a great gulf fixed.

Sues For Injury

Colon, Oct. 1.—Isaac McKenzie, a Jamaican, who was employed by the McClintic Marshall Company, the contractors for the erection of the Lock Gates for the Panama Canal, has brought action against them for 10,000 dols. for the loss of an eye, which he alleges was destroyed by a bolt whilst he was in the employ of the contractors. Attorney Valentine Bruno appeared for the plaintiff in the Ancon Circuit Court on Wednesday. The case will be heard next week.—The "Starlet."

Unprecedented In Limon.

At daylight yesterday morning we heard that the corpse of a white man was seen laid in sheets in the Anglican Church. Immediately we set about enquiring into the matter and we found that a Mr. Gillespie, an American citizen, brother to the Accountant of the U. F. Coy and Northern Railway supposed to be a member of the Episcopalian body, died in the quarters of the Northern Railway on Thursday evening. Arrangements were made to receive the corpse in the U. F. Coy's Hospital, but subsequent arrangements were made with the acting Rector of the Church, that the body lie in Church until the arrival from San José of his brother the Auditor. Consequently there was no 7 o'clock service in the Church as customary on Friday mornings.

In view of the importance of the precedence established, the acting Rector was interviewed as to the propriety or impropriety of the circumstance, he replied that it was customary in some of the Churches at Home to have this done, i.e. to have bodies lying in state for days, and in some instances to say a "Requiem Mass" for the departed in which the principal mourners take part; "yes," we replied, "but in most instances there is generally a 'side chapel' for this purpose, but not in the body of the church, to inconvenience members of the Communion, and besides that would be confined to active and prominent members of the church and not to passers by who are only supposed to be members of the Anglican body. Yes replied the Couth gentleman but that is entirely within my discretion and not within the jurisdiction of any one else to question. Oh! that ends the matter with us then was the retort, not being a member of your committee, or the church you had I a voice in the committee, it would not, and as it was evident that the gentleman was too polite for further reasonings, we parted.

Anyway this is a precedent that has been established that he may yet be sorry for. As he could not reasonably disapprove of the Church being used for similar purposes at any time anyone should die claiming to have any connection with the Anglican Church should the friends make the demand—except money is the object, if so, the committee ought to see well how many hundred colones have been credited to the funds, for such an honour to a practical stranger among friends who have never honoured themselves by entering the sacred premises since they lauded in the country. It was our privilege to witness the church entirely in charge of the gentlemen, employees of the Northern Railway who never assisted at our ceremonies, yet there they were lighting the candles in the Sacred Altar in such a manner as to give us the idea that they are Roman Catholics. The deceased was only in the country about 5 weeks and had been suffering from Bronchial affections.

More "Chapas" Or Chips.

Mr. Editor:

Sir,—Permit me space in your valuable paper to bring the following fact before the public:

Why should the law not be respected? We have seen an order in the papers calling for the necessity of paying all labourers on farms, every two weeks, and that all chips must be abolished. But it is only the U. F. Coy, which is trying to observe this rule, inasmuch as they do not do it regularly, but other farms and places of business around here are doing just as they please, using the same old chips as cash. We ought all to obey the government of the country, rich and poor alike, if not things will be worse than they were.

Thanking you for space.

Mr. Editor:

Sir,—Not with any intention of entering into Political matters, but grant me space in your valuable columns to substantiate what was written by "W. I." in an article appearing in your issue of Oct. 5th.

Sir, I was a liver in one of the sections on the old line, and from the continual annoyance of this country Judge and Inspector, I had to quit that place I know the burdens of Mr. Carmona personally, and if the government should send and investigate the matter from La Junta to Guapiles, 95 per cent of the people could prove the grievances they suffer at the hands of this officer. He has a notion that all West Indians are afraid of the Claboose and will pay any fine imposed on them, rather than go there, and as law abiding citizens they will not appeal to the higher tribunals to stop his cruel ways I therefore congratulate "W. I." for taking so much interest in bringing the matter to public view, as his methods are really unjust.

Thanking you for space.

The Ulster men are determined not to countenance Home Rule for Ireland to prove which there was a mass meeting at Belfast on the 28th, when thousands of men signed an agreement to use every means found necessary to defeat the present conspiracy to set up Home Rule in Ireland. Sir Edward Carson was the first to sign. Over 400,000 people took part in this demonstration and celebrated Ulster day in this determination.

C. BENJAMIN WILLIS,

TO BE OR NOT TO BE!

We have received some very serious letters in this office which if they be true, call for very stringent methods by the government. These letters all go to prove that the labourers on the farms of Messrs. Lindo Bros will not be payed twice per month as the government directs. In the first place, it seems that arrangements are being entered into by which the men are contracted to accept their pay once monthly, for since all the works are given out by contract naturally the men will only get paid when these contracts are completed. There may be two or three day labourers on each farm who will be paid in accordance with government regulations.

On the other hand, these labourers are compelled to take orders on the Commissaries designated by the Mandadors of farms and these orders if not the presented to the Commissaries so designated by the officers on farms do not carry any value, although the men are charged with same, and if they insist on getting their values they are dismissed from the farms, and of course the friendly feeling that exists between the managers of Lindo's farms and those of the U. F. Coy, means to the labourer that if the word is passed around from one to another, such a labourer who insists to receive the value of his labour twice weekly would be practically black balled from work altogether. Due to the receipt of these letters we have visited these places and made enquires and all the labourers we have met, say that they would be very happy to receive their wages twice weekly, but they cannot demand it, and more that when the bosses come around and ask them if they rather their monies monthly or quincennially they are bound to say monthly so as to have the good favours of their employers or they know dismissal will follow on the slightest pretext.

Now if there is a law made for the guidance of us all, however stupid it may appear to those who have a leading thought, it ought to be obeyed first by those in authority, so as to set the example of obedience to those beneath us. We understand that representation has been made to the authorities that the employee of Lindo Bros. at Matina Commissary made some very sweeping remarks both regards to the determination of Messrs Lindo Bros. not to pay but once monthly. If he has, we do not believe that this firm will stand by his babbling but its hardly likely that a man could be so silly. We do not know what actions may be taken in so far as the paydays are concerned, but this we know that once an order is given by these farms to the labourer, it represents cash to him and can be spent anywhere, without any per centage being charged, if therefore ten per cent is being charged to cash these orders, then it is against the law and surely if the labourers who are subervient to the will of their employers, cannot bring it to light, surely the police in each section ought to uncover all these illegal acts, because they must know about them. We will return to this subject in our next and any information on the point will be gladly received by us.

The After Effects Of Fever

After fever—whether it be ordinary fever of the simple character or one of the serious diseases like Typhoid, the acute stage of Malaria, etc. the unfortunate patient is always left in a condition of more or less prostration and collapse, with an emina of greater or less intensity, and a sensation of mental and physical weakness which makes him take an utterly erroneous and despondent view of his condition.

Obviously, the thought uppermost in his mind, the supreme desire of his existence, is to get as better as rapidly as possible, to feel the warm blood coursing through his body, and to have that mental and physical grip over himself which are characteristic sensations of perfect health. In achieving this desired end, nothing will have so rapid an effect as Sanatogen which is known, the world over, as the most revitalising, the greatest restorative and recuperative tonic food in the world. Its reputation rests on the bedrock of medical opinion, as it is by the direct prescription of doctors every where that that reputation has attained the eminence it enjoys.

Its value has been strikingly set forth in the following words of a well-known physician, which every doctor will confirm. This doctor writes over his own signature:—"I recommend Sanatogen highly, and prescribe it wherever necessary, thereby shortening the period of convalescence among my patients."

These words coincide with those of the physician, the Queen-Mother of Italy, who writes:—"I have used Sanatogen with marked benefit in convalescence after long illness. I consider the preparation a most excellent tonic food."

The effects Sanatogen has wrought in the after-treatment of all fevers, restoring the blood to the condition of health, reinvigorating the nervous system, building up the bodily strength and restoring the weight which has been lost, are facts which are easily verified by everyone, for they are within the knowledge of all doctors, and your own physician must substantiate them if you ask him.

Sanatogen can be obtained at all chemists, or direct from the Distributors New Store Costa Rica.

REPUBLICA DE COSTA RICA

LIMON, SÁBADO 12 DE OCTUBRE DE 1912.

AMERICA CENTRAL

12 de Octubre

Recuerdo histórico bellísimo, fecha gloriosa consagrada a la memoria del ilustre marino genovés Cristóbal Colón; quien desafiando las iras del Océano se lanzó en su endeble carabela al travez del mar indomable hasta ese entonces, en busca de un camino. Pero quiso el cielo que en vez de éste, encontró una exposita hija que lo llamó su padre.

Cuanta alegría experimentaría su alma al contemplar esas playas bordadas de perlas y corales, donde la joven y virgen naturaleza se dormía al sentir las dulces caricias de su amor el mar que envidioso se oponía a que seres extraños se apoderaran de su novia.

Jamás se figuró que al recibir en su frente, de su hija colombiana el beso de la gloria se conquistaría también la corona del martirio.

El martirio fué el premio que recibió de los hombres! Como lo dijo el ilustre poeta peruano Salaberry en su sentido soneto que dedicó a su memoria

«Que en pagó de ese mundo que le dieron. La cárcel la escasez y el abandono»

Con eso coronó su obra aquella inconsciente humanidad de aquel siglo, al que hoy de rodillas venimos a orar ante su altar.

Reyenciamos su memoria.

FERMIN RODRIGUEZ H.

Burlando la ley

A penas acaba de sancionarse la dictada para garantizar el trabajo del jornalero en el campo, del obrero en las ciudades, Ley en la que el diputado Peralta, ha demostrado al país que es un verdadero representante del pueblo consiguiendo con ella el bienestar de las clases menesterosas, cuando ya empieza a ser objeto de burla por un potentado que no satisfecho con el enorme capital, que así puede decirse en este país ha adquirido entre nosotros, aspira a más sin tener en cuenta para nada el sudor copioso del rudo trabajador en sus faenas para con su producto poder llevar el triste mendrugo de pan a su humilde familia, producto de su laboriosidad y honradez.

¿Qué le importa al que empezando siendo simple dependiente, después millonario, las lágrimas de las madres, esposas, é hijos de esos pobres jornaleros, pidiendo a sus padres, maridos ó hermanos el pedazo de pan para satisfacer el hambre que sufren porque el potentado no les da trabajo?

El señor Cecilio Lindo, el dueño de tantas fincas de bananos, está sometiendo a tortura cruel a los desgraciados peones que en ellas trabajan.

No pudiendo darles cupones por la prohibición que de ellos se ha hecho, les entrega un librito impreso en Castellano y en Inglés; pero esas órdenes son tan solo para sus distintos comi-

sariatos, porque no la reciben en ninguna otra parte, de modo que el infeliz peón está obligado a recibirlos y si no los recibe se le niega el trabajo y si ha trabajado, se le paga como lo ordena la nueva Ley, quincenalmente, porque ese señor no le da la gana de cumplirla.

El señor Lindo, sin duda alguna se ha olvidado de las penalidades que sufría ahora veinte y cinco años atrás, cuando era pobre, cuando era simple dependiente de un comisariato, como él mismo lo ha confesado. ¡A cuantas transformaciones en la vida se presta el hombre por la sed de Oro!

Más la Ley no debe quedar burlada y del señor Presidente de la República al último empleado como autoridad de hecho y de derecho, sin contemplaciones ningún género, sin atender a la categoría de la persona que la burla, por muy poderosa y grande que sea, deben hacerla cumplir y respetar porque esa Ley no establece privilegio alguno a favor de determinados individuos.

El pueblo trabajador reclama sus derechos. Veremos que resuelven las autoridades del Cantón Siquirres ante las justas quejas que en tal sentido les han hecho varios jornaleros.

EL MAL EJEMPLO CUNDE

También pequeños potentados del Cantón Pacóci en Guápiles, siguiendo el ejemplo del señor Cecilio Lindo, extienden órdenes en blanco para determinado establecimiento, haciéndosele el descuento del 15% sobre su valor, que equivale a la existencia de los cupones, prohibidos hoy por la Ley del diputado Peralta, y para en todo los procederes del referido lo verifican los pagos quincenalmente como está prescrito.

¿Qué hace el señor Jefe Político en este caso?

La voz del caído

Con este epígrafe hemos tenido ocasión de leer en nuestro estimado colega capitalino "La Información", de fecha diez de octubre en curso, una muy conmovedora carta pública que a los señores Magistrados de la Sala 2a. de Apelaciones, les dirigiera últimamente, desde esta ciudad, el joven Jorge J. Pastor Padilla, víctima hoy de una de las más terribles de las desgracias que puede pesar sobre los hombros de nosotros los hombres, que sujetos estamos a sufrir tantos y tan tristes descalabros.

Nuestros lectores conocen ya, a ciencia y conciencia, las causas que llevaron al joven Padilla a la consumación del delito por el cual fué condenado por el Juzgado del Crimen de esta provincia, a sufrir la terrible pena de 14 años de reclusión y 4 de vigilancia, y conocen también las circunstancias favorables que en el desvolvolvimiento de los hechos existen para el reo.

Padilla, arrebatado por la fiebre tristísima de una fuerte pasión amorosa, llegó al crimen

sin que tuviera un solo instante de despaño para reflexionar.

Su cerebro cubierto por el manto de la fatalidad, no pudo vislumbrar la tentación que lo perseguía. En ese instante vivía en una densa noche, sin luces, sin estrellas, velada su mente por la sombra fúnebre de la desdicha, tal como si hubiera vivido en el más deplorable estado de demencia y abandono.

Y ese joven, sumergido así en un mar de tristezas y de locura, antes no había sido conmovido por causa de ningún género, porque siempre observó buena conducta, hasta el extremo de que una vez esparcida a las cuatro vientos la noticia de que había perpetrado ese crimen, dicha noticia fué recibida con pena general para el delincuente, pues todo el mundo tomó en consideración su proceder correcto y trató familiar, y así es que de boca en boca no se oía sino un tétrico lamento de compasión, para el victimario y para la víctima. Eran dos infelices que mutuamente bajaban a la tumba!

Un hijo bueno, amante de sus padres, se lesprendía del seno de los suyos para ir a formar parte de otros tantos que se encuentran encerrados dentro las celdas de la penitenciaría.

Los Jueces, al conocer de la condena que le ha sido hecha al joven Pastor Padilla, deben de elevar sus conciencias a las alturas, y recordar de «Los Miserables» aquel hermoso pasaje en el cual Victor Hugo, con su acostumbrada erudición y gran espíritu de humanidad, pone en labios de aquel famoso Obispo la abdicación de Jean Valjean.

Así lo pedimos!

A nuestros lectores

En el deseo de complacer a nuestros lectores, hemos ensanchado nuestra lectura en dos columnas más en la página siguiente. También nos complacemos en hacer del dominio público que con el objeto de hacer diario a nuestro periódico, hemos hecho un variado pedido de tipos a los Estados Unidos de Norte América.

Estimado señor:

Aunque se había dicho, que la aduana que acaba de construir se se inauguraría el doce de los corrientes que la Patria ha dedicado a conmemorar las glorias de Cristóbal Colón; es lo cierto que la inauguración se ha verificado dos días antes, es decir el nueve de este mes por el señor Presidente de la República vino con tal objeto, de manera tan triste y de la que se acostumbra en esos actos oficiales que lapoblación de Limón no se ha dado

cuenta de ello; y mucho nos ha extrañado que la Honorable Corporación que usted preside, no haya concurrido a esa solemnización ni aun siquiera por deber de cortecía hecho que desdice mucho de la cultura del pueblo limonense.

Podrá decirnos el señor Arias que es lo que pasa en esto?

Como nuestro artículo titulado «Disentimos» publicado en nuestro último número, de fecha diez de los corrientes, salió con muchísimos errores ajenos a nuestra voluntad, lo reproducimos hoy con las correcciones hechas a fin de que pueda interpretarse debidamente.

DISENTIMOS

Nuestro querido colega El Correo del Atlántico en su número del lunes último pasado fecha seis del mes en curso con el mote de «Tópicos del día» trata con mucha falta de criterio el simple incidente ocurrido entre el señor Gobernador de esta Provincia y la Honorable Corporación Municipal, motivada por la orden del señor Presidente de ese cuerpo dada al Tesorero para que no pagara los giros de algunos empleados si no iban firmados por éste.

Según entendemos es de la competencia exclusiva del señor Gobernador firmar los giros de los empleados Municipales y de su dependencia y el mismo colega dice en el mismo artículo que nos venimos refiriendo que el señor Gobernador quiso firmarlos el día 30 del mes pasado y que no lo hizo debido a la orden del señor Presidente de la Municipalidad, que se ha basado sin duda alguna en una disposición de las ordenanzas municipales del Consejo Edilicio de San José, disposición que no rige en nuestra Municipalidad.

Si el caso fué sometido a consulta del señor Ministro de Gobernación y Policía y éste resolvió que solo el Gobernador de la Provincia era el llamado a firmar los giros, no vemos que esto sea motivo para que esta autoridad haya presentado su renuncia del cargo que ejerce, como no lo vemos tampoco en lo dispuesto por el superior declarar que el nombramiento de empleados de la Municipalidad sean buenos o malos compete solo a esta Corporación y no a aquella autoridad.

Tanto el señor Gobernador, como los señores municipales basados en las razones que aducen, han creído estar en lo justo; el primero, por moralidad, en cumplimiento de su deber, y los segundos por creer que están a derecho.

Es por esto que recordamos a nuestro estimado colega nuestros esfuerzos hechos para conseguir la abrogación del derecho de veto y la libre autonomía de las Municipalidades.

Si nuestros ideales hubieran sido puestos en práctica, esos poderes obrarían hoy independientemente, serían fiscales uno del otro y las faltas en que incurriera cualquiera de ellos serían dilucidadas bien por los tribunales represivos, ya por los tribunales ordinarios de justicia ó bien por el Ejecutivo, previa acusación ó denuncia en forma.

La Corporación Municipal solo ha dejado de celebrar una sesión, y con justo motivo, debido a la muerte de nuestro querido correligionario político, compañero y amigo D. Crisanto Fernández; y ya que tratamos de esto, creemos oportuno que la comisión nombra da por los señores municipales eligiendo al Señor Gobernador y a su Presidente para ir a San José y presentar el pésame a la señora viuda e hijo señor don Joaquín Fernández a nombre de la Municipalidad como secretario de la comisión.

la conceptuamos extemporánea porq' la comisión enviada por ese cuerpo para asistir a su entierro llevaba esa misma misión y la cumplió.

En cuanto a lo de la renuncia le damos carpeta y en cuanto al desacuerdo existente en esas entidades, nos está probando lo contrario, la elección hecha en la persona del Sr. Gobernador y en la de su Presidente p' invitar al Sr. Presidente de la República a fin de que con su presencia en los días de fiestas cívicas de esta localidad.

Uno de los vetos nada dice; ni el señor Gobernador ni la Municipalidad son autoridades omníparas; ellos están sometidos a sufrir equivocaciones como cualquiera otros particulares, y a elevar a consulta del superior los casos como el presente en que cada uno de las partes cree tener razón.

En estas cuestiones debemos andar con pié de plomo y evitar abondar diferencias que no valen la pena por medio de la conciliación; único medio que hará posible que el progreso de Limón no se paralice.

Visita Presidencial

La que nos hizo el señor Presidente de la República el miércoles de esta semana última, fecha 9 del mes en curso, parece que tuvo como único objeto la inauguración de la nueva Aduana de este puerto; acto del que se dieron cuenta muy pocas personas, como sucede con todo lo que se relaciona con Limón, aprovechando la oportunidad de ver la casa ó cuartel destinada a los bomberos y a guardar las bombas.

Tratándose de obras de tanta trascendencia y valor como la de ese edificio, no hay mejor fiscal, mejor inspector para ellas que el mismo Jefe de la Nación.

Don Ricardo con su mirada de hombre inteligente, al examinar la obra, habrá encontrado en ella solidez, estabilidad, oficinas amplias y cómodas para dar acceso a gran número de empleados; pero nos dará la razón en cuanto dijimos, ya ocupándonos de ella, que carece de estética, que no lleva todas las condiciones que requiere una aduana propiamente dicha, porque no comprende dentro de su radio partes destinadas a bodegas ó almacenes y a la administración de licores, para que estén a la inmediata vigilancia del administrador y vistas de aduana, cosa que se hubiera conseguido con un poco de costo más.

También nos dará la razón cuando dijimos en nuestros números anteriores que el lugar escogido para levantar esa aduana, cuyos trabajos están al terminar no era el más apropiado. Saliendo del muelle de madera hacia la ciudad, al Este, hay un inmenso solar en donde estuvo la aduana antigua, que era el llamado para construir esa obra, destruyendo los verdaderos ranchos que sirven de bodega, que aun siendo tan malos tanto dinero han costado, a fin de que formaran parte del nuevo edificio, y desapareciera de aquel lugar esas barracas que tan mala vista presentan y tan mal efecto causan. En ese lugar si habría podido hacerse esa obra con la solidez, durabilidad ó estabilidad necesarias; pero con algo de belleza, en el orden, que lo cortés no quita lo valiente; porque entonces se habrían realizado dos cosas: quedar el Gobierno satisfecho y Limón

agradecido por su ornato y por que no se le quitaba, como se le ha quitado, la riqueza de su hermoso panorama del mar.

Si se ha tenido como punto de vista la posición en materia de contrabando, en nada demerecía bajo ese mismo punto, el solar citado porque tambien lo abarca.

La obra es netamente al estilo americano; lo hecho pues no tiene remedio, el Gobierno se encuentra satisfecho, porque ha llenado una necesidad y nada más.
