### Fire at Work

Buenos Aires, Feb. 5.—A fire destroyed this morning a portion of the Archives of the Ministry of War. It started in the Public Works Office. All the furniture in both offices were destroyed.

The new Ministers for Mexico and Peru, Messrs. Ignacio Naviera and General Juan Nalberto Eliapuru were officially received by the President this evening.

### Immense tracks of Lands Bought

The Farquhar Syndicate bought 179 square leagues of land in Paraguay near Asuncion.

### Plot Discovered

A despatch from Asuncion Paraguay says that the authorities have discovered a plot to assassinate President Schafer. The Minister of Foreign Affairs, Gondra, and Coronel Mendoza and Quarile.

The police found rifles and shells in the offices of the newspaper "El Civico." The Chief Editor and others in the office were arrested.

### Castro Entrapped

Washington.—It is said that Castro will make a very short visit in the U. S. A. He declares that he feels that he is intrapped like a rat by the Immigration Authorities and that he does not answer the indiscreet questions put him by them, so as to avoid establishing a precedent, which would be equivalent to acknowledging them as international Authorities or Immigration to clear up Civil Political and Criminal matters of the Nations.

### Steamer in Distress

Manila.—The steamer Cincinnati, left in tow of the British fish steamer Yingshow which was found in distress near the Island of Luzon. She carries 200 passengers and belonged to the Chinese Navigation Coy. All were saved.

### New Term For President

Washington.—The question of a term of six years for the Presidents of the U. S. A. is being discussed in the Senate. Senator Cummins argued much in favour of it. He contends that the Presidents will be better able to comply with their

duties, and it will also avoid the political influences of those avoured ones for the next Administration.

News were received by the State Department from the Ambassador in Constantinople, that the Bulgarians are preparing to start hostilities again, on Monday night the time for the Armistice ends.

### Balkan war

The Bulgarian Minister of Foreign Affairs has notified all the Powers that the sea of Marmara has been thoroughly mined wherever occupied by them.

### Greeks and Bulgarians ready for War

London.—News from Sofia this evening says that Bulgarian troops under the orders of Savaoff are actively preparing to renew the attack on Adrianopolis, Montenegro and Greece exercise similar rights in Serbia and Japan to that which the Bulgarians do in Adrianopolis. It is semi-officially affirmed that their demands are backed up by the aid of the triple Entente at least that of France and Russia.

Dr. Streit, Greek Minister to Vienna, left London today to occupy his post. On boarding the train he said that their reasons for renewing the war is because the peace negotiations which have failed, has been more expensive than the war, for the costs of maintaining the armies in warfare has gradually been draining the resources of the allies, costing Greece alone a million daily, and Bulgaria 800,000 meantime the Turks have been playing their games of delays and delays, with the hope of exhausting their means.

The renewal of negotiations is at present impossible, but I hope to return and sign the treaty when the fate of Turkey is sealed.

### The King Sick

London.—It is rumoured that the King is sick, in spite of the declarations of the doctors he has been in bad health. Hundreds of suffragettes arrive from the provinces anxious to affiliate themselves in the movement. It is feared that they are preparing a plan with desperate means, since those already adopted has been ineffective.

### For Collection

We beg to crave the leniency of our many subscribers, patrons and friends from the fact that so as to be better able to make our collections to meet our expenses, we shall have to close down this office for a week so as to square up our accounts. Our subscribers along the lines and particularly in Cartago, San José and Turrialba will assist us by sending in their dues.

T. H. BAKER,

### Notice.

To Whom it may Concern: Be it known that I am quite in a position to support myself, hence Solomon R Stanley is quite free from any obligations, and need not fear that I will contract debts which he will be responsible for.

I have however to say, that his statements are false and misleading and to say the least of it, wicked and unbecomingly so, for Mr Solomon R Stanley I live in the house in which we were both living, and where I am still living, with two children to support, and owing rent too. He demands the wedding ring, with threats of litigation, therefore I was compelled to return it. He subsequently took away the elder of the two children leaving me with the babe—because he wanted me to support himself and the house, which I refuse to do, as he would not even try in the slightest manner to meet the very lens of his household, or any other obligations.

MELVINA AGATHA STANLEY

**A mile of Smiles. Don Cecil Lindo. A Brutal ac-**

Just before the fall of the curtain at the end of the opera "Don Juan" at the Opera Comique in Paris, a spectator in the stalls fell off his seat. The honour of the incident so tickled one of the principal actresses on the stage that she went off into peals of laughter. Her example was so infectious that one by one each of the singers began to laugh in turn until all were incapable with mirth. Then the audience began to laugh, too, with the result that the curtain had to be lowered before the end of the opera had been reached.

Mr. Cecil Lindo has spent a week between Limon and on his estates looking around them always with a view of betterment. He spent much time in The Soda Water Factory and made several improvements, among them we learn that Mr. Morales will turn over to him all the Waters made by him for sale.

He left Limon on a visit to the works at Rio Hondo, then to Siquirres and from there to Juan Vinas, and back to San Jose. In Juan Vinas he has propositions on foot for improving the plant of his great sugar machinery. He has already imported an English Engineer from the firm from which his improved machinery comes.

He has also made wonderful improvements at Rio Hondo Cacao factory. He is erecting 4 large dryers of the latest type, each one capable of turning out 4000lbs. of cured cacao per hour.

In our next we shall get full power, but suffice it to say that Mr. Lindo deserves the greatest credit for such improvements, which goes to prove that everything which is undertaken by him seem to be done with an aim that his first thought is for the betterment in the agricultural pursuits of Costa Rica.

Report says that in April next the company will either take over all his banana farms or he will start up his new Co. Whatever may be done we know he has his trump card yet up his sleeves to come and when it does come it will carry with it widespread satisfaction to all.

**American Troops Recalled**

"La Republica" has it that according to advices received from passengers recently arriving from Nicaragua, the American troops which occupied that Republic under Commander Chas. B. Lorig have all been recalled home by the American government. This proves that the Washington government is satisfied with the capability of the Diaz government for preserving order in their country. This is good news for Nicaragua.

**Veto on land.**

Panama, Feb. 1.—The third division of the Atlantic fleet sailed today at 5.30 p.m. for Guantanamo. In the National Assembly, the bill passed for the adjudication of national lands, repealing all former laws on the subject. The new law raises the price of lands and increases the difficulties for forming new colonies. The opinion is to impede American colonization and establishment in these immense fertile regions though uncultivated. This move will retard the agricultural progress of the country.

**Heavy Blasting**

On Tuesday morning a great detonation was heard, and Limon shook and heaved at about 9 a.m. Everyone thought it was a great earthquake, but it was soon discovered that it was the work of the divers blasting away old piles from the path of construction on the old Pier.

Fish was lavishly distributed about town, in consequence of the blasting hundreds of fishes of all sizes and qualities were killed. The labourers were much elated over this.

**Minister Returned**

The family of Senor Orsuno, the Minister of War, returned to San Jose by the Presidential Coach on Tuesday, after having spent several weeks of vacation here. The press wishes the distinguished family none but the most pleasant reminiscences of Limon.

**By an apparent Suffragette.**

Mr C. Knautt, called on us on his return from Parismina, and informed us that the woman in charge of the Hundriesser Farm, of Messrs. Hundriesser Bros of 7 1/2 Miles. Rio Peje, acted towards a party of travellers passing through that farm on Monday morning 3rd inst. at 3.30 in the most barbarous manner as could be possible to one born in the jungles of Central Africa.

Nothing could be compared to the abruptness of this human tigress, he said: A party of 4 passengers and a crew of 3 making a party of 7 arrived at the sawmill by the Government Launch to await the Peje train from Siquirres at 8.30 of that morning and as is customary they went into the shed of the Sawmill to rest until daybreak, as it may well be imagined the fatigue of these poor people when it is considered that they were travelling for 46 hours in a little boat where one can hardly stretch his feet out, having to sit in one position all the while, with only two hours rest in Parismina, in company with a woman 8 month enciente suffering the tortures of such travails on the way to her family for confinement.

No sooner did the party arrive, than this Jezebel bore down on them from the dwelling of Hundriesser with a rifle in hand and her hounds and drove them off the premises in language that would have defiled the precincts of the habitations of hell, in vain did the gentlemen interpose for saving (if not themselves), but the woman in company with them from the long walk to the shed at the Railway lines about a mile away through dark, rough and muddy road at 3 o'clock, but all the pleadings were unavailing and what's more the insulting and obscene language used by her in refusing a reasonable request was worth twenty refusals. The hardships of the unfortunate woman may well be imagined when the 101 fall and stumbings along a mile of such road at 3 a.m. that morning, after having to sit in a cramping posture for 46 hours are taken into account.

The mystery is, says our informant, that Mr. Hundriesser who belongs to a most hospitable and civilized people, the German race, would condescend to keep such an uncivilized woman in charge of his farm during his absence from home.

**The Suffragette**

The police are convinced that the terrorism exists personally against the members of the Houses of Lords and Commons, they fear therefore that they will attack their private homes with shells. Many liberals are in favour of the Bill for the Suffragettes, although its inefficacy is feared. The Suffragettes broke the glasses in the jewel room of the Crown, in the tower of London, they were arrested. This indicates that they have the plan to attack Government property.

**Absent-minded Beggar.**

Speaking at a meeting of the Royal Asiatic Society a few weeks ago, Lord Harris said that Lord Lawrence, Governor General of India, was so absent minded in matters of external display that when the Kohinoor diamond, now among the crown jewels, came into his hands for transmission to Queen Victoria after the annexation of the Punjab in 1849, he kept it for six weeks in his waistcoat pocket, having forgotten all about it and only discovered it there by accident.

**A new Ship.**

The first of the U. F. Coy's new large boats comes in today the s.s. Pastoria. From what can be gathered she will be by far the best ship running to these shores. The Pier will be thronged with sight-seers.

**Facts are Stubborn Things**

This is a fact that you would have to search diligently to find a better all-round Tailor than W. A. Petgrave of Siquirres. He is an adept in Coats, Breeches, and other technical garments.

Try him and be convinced.

**Women Are Martyrs.**

Woman is her own worst enemy—seldom does she make allowances for herself—Self-sacrifice with her is persistent—in fact it is pernicious—consequence she is seldom both healthy and happy.

Everyone's health must be looked after--all but her own, in her own mind she comes last--always.

No matter how strong her constitution she must eventually give way under the strain—the climax comes in a complete collapse

Careful and constant attention to details in the matter of her own health is imperative—the delicate functional organs must perform their duty with unceasing regularity, the blood must be kept pure, it must nourish every tissue of her body, and the nerves kept proof against irritation

Considering that it's only a matter of a few seconds each day—three or four doses of

It sells at £ 4.00 the bottle. A very fine line of rubber goods, such as hot water bottles, fountain syringes, etc., now in stock at
